

ARMANI / Roca

BAIA
ACCESSORIES CATALOGUE

*“Decorating a space is no different,
for me at least, than dressing a
person. I’m always interested in the
fine balance between naturalness and
refinement, between sophistication
and simplicity, between accessories
and all of these aspects together”*

Giorgio Armani

Exquisite round table mirror with magnifying swinging glass on one side and adjustable height. Every detail of this handcrafted piece has been carefully designed to combine beauty and functionality. Thus, even its base has the perfect size both to provide stability and serve as convenient support for small beauty accessories or jewelry. The use of Greige, a leitmotif in Giorgio Armani's creations, considered by many to be the ideal shade in interior design, mixed with the Off-white finish, adds a final elegant touch to this piece.

A gorgeous individually handmade double compartment box, conceived to keep small objects tidily stored. Yet still, due to its precious design, it is a decorative object of desire by itself. A tasteful combination of inserted rings in Greige and a smooth Off-white finish body has been used to enhance the beauty of this piece.

Likewise, the round shaped soap dish, carefully hand-crafted, may well also be used as a sophisticated matching small tray.

The wide range of Armani/Roca countertop accessories fits every need featuring: soap/body milk dispenser, toothbrush/ make-up brush holder and tissue paper box holder. All of them in an elegant mix of brushed and shiny metallic details. A tumbler in translucent fumé finish with delicate inserted bottom metallic rings in line with the rest of the collection is also available.

A refined Off-white resin tray is the perfect complement to arrange these accessories, hand towels, small objects or jewelry.

They all combine perfectly with different bathroom styles due to their timeless design.

The stylish combination of metallic finishes creates a playful look of shades and brightness that emphasizes the soft rounded shape of these all-purpose boxes when they are placed on the furniture. Moreover, they also fit perfectly inside the Armani/Roca furniture drawers to keep all kinds of small items in place.

The towel rails are individually handcrafted with the utmost care to produce these sleek and jointless pieces. They can be fixed on the wall or on the sides of the Armani/Roca furniture to dress it with towels. In addition, the small but solid robe hook provides a functional solution with an exquisite look.

All of them are available in three different metallic finishes to combine with the rest of the accessories of the Armani/Roca Baia collection.

The round shape of this wall-mounted mirror is emphasized by a metallic profile that gives it dimension and a sophisticated retro-look. The Greige and Brushed steel finishes have been hand-crafted to enhance the bespoke feel of the piece and add a discreet, contemporary quality to the bathroom suite.

Elegant wall lamps with a semi-circular shape made of fabric and metal rings either in hand-crafted Greige or Brushed steel finish. Carefully manufactured to be installed in bathroom environments, they add an art deco style with a modern twist to any bathroom suite.

Discreet design for the range of accessories that fit every need around the WC area featuring: wall-mounted covered toilet roll holder, waste bin with functional swing cover and floor standing toilet brush holder. The same sophisticated combination of shiny and brushed metallic finishes is applied on all of them as a constant distinctive trait of the entire Armani/Roca Baia collection.
