CERTIFICATI DEL SISTEMA DI GESTIONE

Gessi the ethical company, attentive to quality, laborers and the environment.
Employing advanced technology, and sometimes inventing its own new processes, adhering to its own strict policies, often far beyond regulations, every day Gessi affirms its goal of preserving the environment, manufacturing creations of unparalleled quality and promoting a healthy workplace.
These is what Gessi strives for, in the belief these values should be shared by all those who want to foster a culture of the product that goes beyond simple appearances.

Gessi azienda etica tra qualità, persona e ambiente.
Impiegando tecnologie avanzate e talvolta creando processi innovativi, aderendo alle proprie severe politiche e andando spesso oltre le prescrizioni regolamentari, ogni giorno Gessi afferma il proprio obiettivo di preservare l'ambiente, di realizzare prodotti di impareggiabile qualità e di promuovere un luogo di lavoro salubre.
Sono questi i valori che stanno a cuore dell'azienda e che dovrebbero essere condivisi da tutti coloro che, come Gessi, intendono promuovere una cultura del prodotto che vada oltre le pure apparenze.

AMBIENTE

Gessi has been for years on the forefront of "green" production; in fact the Company has since long engaged in very serious R&D aimed at introducing technological or technical solutions in its products and processes, whose goal is the to minimize resources consumption and the overall impact on the environment, while still preserving outstanding aesthetics and proposing innovative designs at every new season.

Gessi è da sempre attenta al tema di una produzione "verde". L'azienda è da anni seriamente impegnata nella ricerca e nello sviluppo di soluzioni tecnologiche e tecniche nei propri prodotti e processi, rivolte a ridurre i consumi e minimizzare l'impatto sull'ambiente, preservando tuttavia la cura attentissima all'estetica e proponendo ad ogni stagione design innovativi.

QUALITÁ

The added value of a genuine, integrally "Made in Italy – Made in Gessi" production, is apparent in all Gessi's creations.

Il valore aggiunto di una produzione genuinamente e integralmente "Made in Italy – Made in Gessi", emerge in ogni creazione Gessi.

L'OASI GESSI, UN PARCO INDUSTRIALE NEL VERDE

Il design oggi non può essere solo estetica, ergonomia, funzionalità e capacità di industrializzare il prodotto; il design deve tenere conto dei valori e delle preoccupazioni della società: l'ambiente, le risorse energetiche, nuove modalità dell'abitare, nuovi bisogni individuali e collettivi.

Gessi è impegnata da anni in una ricerca molto seria, per proporre, ad ogni stagione, design innovativi dal valore atemporale, nuovi concetti abitativi per il vivere di domani, resi nei materiali di più alta qualità e con la garanzia di una meticolosa produzione italiana; uguale attenzione è dedicata alla ricerca di soluzioni tecniche e tecnologiche orientate alla sicurezza e sostenibilità dei prodotti e dei processi.

Gessi aspira ad essere un posto speciale dove si sviluppano percorsi fuori dall'ordinario.
Da queste premesse nasce il progetto di "azienda-oasi" del Parco Gessi: un sito produttivo "speciale", progettato per essere funzionale ed efficiente, ma anche bello e in ogni aspetto amico del lavoratore e della natura. Il Parco realizza una scenografia di eco-architettura industriale e paesaggistica, tecnologia e design, inserita in modo armonico nel territorio; qui si concepisce e realizza, in modo totalmente integrato, ogni aspetto di una produzione destinata all'esportazione in ogni parte del mondo, con l'impiego delle migliori tecnologie oggi disponibili e con impatto ambientale nullo.

L'immagine "verde" del Parco non è che un aspetto del progetto, che in realtà fonda la sua sostenibilità ambientale su molteplici soluzioni impiantistiche tecnicamente avanzate ed ecologicamente responsabili, assolutamente uniche nel panorama industriale.
Esse vanno dagli apparati di illuminazione e ventilazione naturale, al controllo della qualità indoor, ai sistemi che garantiscono un'alta performance climatica anche attraverso il recupero e riutilizzo del calore, con attenzione all'efficienza energetica e alle emissioni nocive nell'atmosfera.
Gessi ha per prima in Europa sviluppato degli impianti "pilota" che consentono di riciclare la quasi totalità dell'acqua utilizzata, dal drenaggio delle acque del sottosuolo e riutilizzo per fini irrigui, fino alla raccolta, depurazione e riciclo delle acque di lavorazione, e ha installato 4 ettari di superficie fotovoltaica con uno tra i più innovativi ed evoluti sistemi di generazione solare a tetto che ha già iniziato a produrre energia "pulita" a fine 2010 ed eviterà l'immissione in atmosfera di migliaia di tonnellate di CO_2.

L'impegno alla ottimizzazione dei processi e alla minimizzazione di sprechi e inefficienze coinvolge, attraverso il Sistema di Gestione Integrato Qualità e Ambiente, tutti i livelli dell'organizzazione aziendale. La tutela ambientale è presa in considerazione fin dalle prime fasi di sviluppo di ogni progetto relativo a processi o a prodotti: essa è vissuta dall'Azienda come una missione verso i propri clienti e un impegno a creare una mentalità che faccia diventare per tutti tale scelta una "naturale esigenza".

D'altra parte innovare significa per Gessi non solo inventare nuove soluzioni estetiche ma soprattutto soddisfare sogni e bisogni, anche quelli delle generazioni future, con nuove tecnologie, nuovi processi produttivi, nuovi materiali.
Insieme all'unicità del design, alla tecnologia, il vero valore aggiunto del marchio Gessi è il suo contenuto di poesia e rispetto per il mondo.

THE GESSI OASIS. A “GREEN” INDUSTRIAL PARK

Design today need not only be aesthetics, ergonomics, functionality and ability to industrialize the product; it should also take account of the values and concerns of society: the environment, energy resources, new dwelling customs, new individual and collective needs.

Gessi has long engaged in a very accurate study of innovative, timeless designs and new housing concepts for tomorrow's dwellings to be invariably proposed at every season - relying on the use of highest quality materials and the time-honoured tradition of meticulous Italian craftsmanship. The same level of accuracy is used in its search for technical and technological solutions so as to obtain safe and sustainable products and processes.

Gessi purports to be a 'special place' where out-of-the-ordinary fantasies come true.
The new Gessi Park originates from this very idea. It was designed as a special, oasis-like production complex that combines functionality and efficiency with beauty, eco-friendliness and worker-friendliness. The Park layout mixes industrial and landscape eco-architecture, technology and design, all harmoniously integrated in the territory. This provides a perfect setting for seamless production processes where products meant for worldwide exportation are manufactured with the use of state-of-the art technologies and zero environmental impact.

The green design of the Park is just an aspect of the overall project whose environmental sustainability rests with technically advanced, ecologically responsible and industrially unparalleled if not unique system solutions.
These solutions span from natural lighting and ventilation apparatuses through indoor quality control to highly efficient conditioning and heating systems including, inter alia, systems recovering and reusing the heat produced; all devices are designed with the utmost attention to energy efficiency and abatement of polluting emissions into the atmosphere.
Gessi is the first company in Europe to have developed pilot plants for recycling almost all of the water employed in production processes, e.g. systems for the drainage of underground water and its reuse for irrigation, systems for process-water collection, purification and recycling, etc. The Company has also deployed on a 4 ha surface one of the most innovative and advanced rooftop solar photovoltaic generation systems, which came into operation at the end of 2010 and will produce clean energy while avoiding thousands of tons of CO2 to be released into the atmosphere.

The commitment to optimise processes and minimise wastes and inefficiencies involves each level of the Organization through an Integrated Quality and Environmental Management System.
Environment protection is a concern since the very early stages of development of any product or process project; Gessi considers it a mission towards its clients and a commitment to create a mindset for everyone to embrace environment minded behaviours and choices.

After all, for Gessi Innovation means not only inventing new aesthetic solutions but also, and more importantly, meeting dreams and needs, including those of generations to come, with new technologies, new production processes and new materials. Along with design uniqueness and technology, the real added value of the Gessi brand is indeed its content of poetry and respect for the world.

push- BUTTON

The purchaser will receive the mixer with a standard keys configuration, as per the most common water functions selection.

Ciascun acquirente riceverà il miscelatore configurato con i tasti della dotazione standard, corrispondenti alle più comuni configurazioni di funzioni acqua di un'area

Single outlet mixer standard supplied button

Tasto in dotazione standard per mixer a 1 uscita

2 outlet mixer standard supplied buttons

Tasto in dotazione standard per mixer a 2 uscite

3 outlet mixer standard supplied buttons

Tasto in dotazione standard per mixer a 3 uscite

4 outlet mixer standard supplied buttons

Tasto in dotazione standard per mixer a 4 uscite

The standard keys can be replaced with special etched one having the specific icons of the water outlets required by the customer. Any custom key can be ordered separately.
Keys without etching or neutral configurated

I pulsanti standard sono sostituibili con tasti recanti le icone specifiche delle uscite acqua che l'utilizzatore desidera installare nella propria doccia e che sono ordinabili separatamente.Non sono previsti tasti con configurazione neutra ovvero non serigrafati.

DIAMANTATO

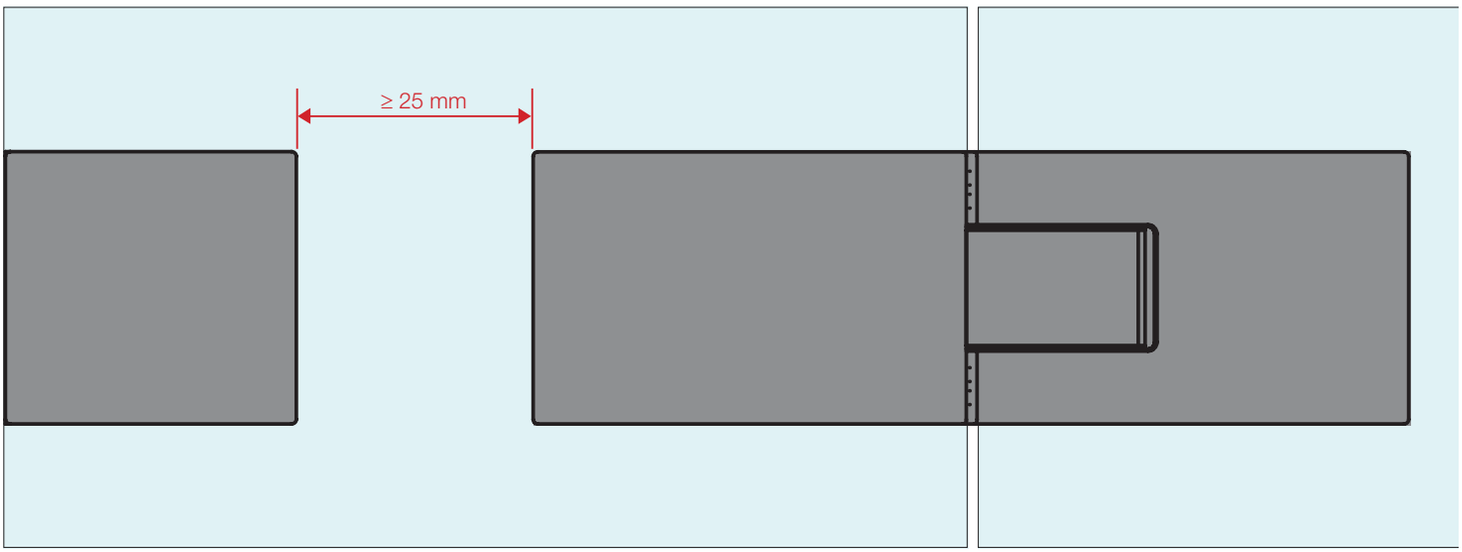

5. RIGATO

6. DIAMANTATO

The minimum required distance between the elements, determined solely on the basis of the dimensional clearances shown in the drawing, is ≥ **25 mm**.

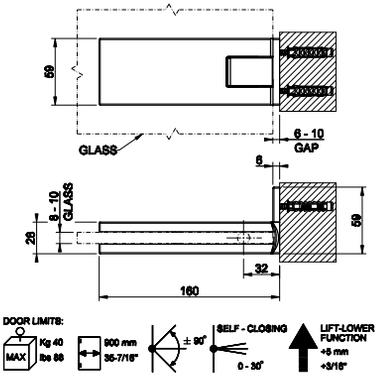

This dimension ensures both the correct assembly of the components without mechanical interference and the removal of the cover, which must always be guaranteed and requires a minimum clear distance of at least **25 mm**.

La distanza minima richiesta tra gli elementi, determinata esclusivamente sulla base degli ingombri dimensionali rappresentati nel disegno, risulta pari a ≥ **25 mm**.

Tale quota garantisce sia il corretto accoppiamento dei componenti senza interferenze meccaniche, sia lo smontaggio della cover, che deve essere sempre assicurato e richiede una distanza minima libera di almeno **25 mm**.

SAFETY VALVE

Gessi Patent Safety Valve
Minimali and Colour showerheads are equipped with a revolutionary safety system, which improves the system and the customer's safety. Impurities and dirt, which might be present inside the system, during the use of the showerhead might reach the silicone nozzles and clog them. In this case, in a system of 3 bars pressure approx., a huge force gets generated. Thanks to the new technology, which is installed exclusively in Gessi showerheads, with a nozzles clog of 50%, the Safety Valve system will drop water through two openings specially provided. This will prevent useless stress for the gaskets and will warn the customer that a proper maintenance is needed. This will be really easy thanks to the cleaning kit provided together with the showerheads. Once the pressure level will go back to standard, the safety system will be automatically shut off.
I soffioni Minimali e Colour sono stati dotati di un rivoluzionario sistema a favore delle sicurezza dell'impianto e del cliente.
Gli impianti portano con se piccole impurità e depositi che con l'utilizzo vanno a depositarsi nelle tettarelle in silicone dei soffioni e cercano di ostruirle. In caso di ostruzione, all'interno del sistema con una pressione idrica di 3 bar si crea una grande forza.
Grazie alla nuova tecnologia installata in esclusiva nei soffioni Gessi, con l'ostruzione al 50% delle tettarelle, il sistema Safety Valve scarica l'acqua attraverso due aperture del dispositivo di sicurezza, al fine di evitare inutili sollecitazioni alle guarnizioni interne al soffione, e dare un segnale al cliente di procedere alla manutenzione e alla pulizia del soffione stesso, grazie al kit di pulizia in omaggio con i Sistemi doccia. Ripristinando le caratteristiche di pressione il sistema si chiude in automatico.

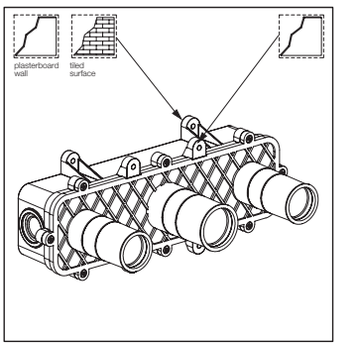

CLEANING KIT

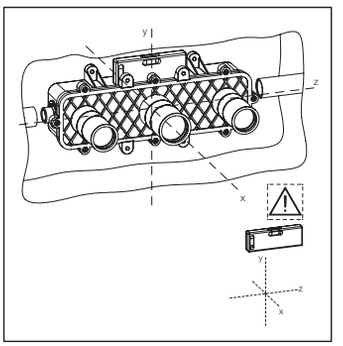

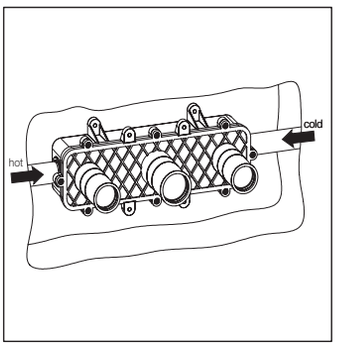

In order to grant a proper cleaning and beauty of Private Wellness showerheads, Gessi prepared kit R4185, supplied together with Minimali and Colour showerheads. This kit is composed by a telescopic arm, meant to reach showerheads installed at a significant height, a rubber roll and a spatula. While water is pouring in "rain" function, it will be necessary to move the roll in any direction of the surface of the showerhead, In this way, nozzles will be squeezed and limestone removed and expelled through the stream of water. We suggest to repeat the same action until all the nozzles will provide a perfect flow. The spatula is meant for the waterfall function. It will be enough to install it on the telescopic arm and move it back and forth the waterfall opening, in order to remove any limestone sediment until the stream of water will get the typical "V" shape.
Per garantire la pulizia e la bellezza dei Sistemi Doccia Private Wellness è stato realizzato il kit R4185, in omaggio con i Soffioni Minimali e Colour.
Il Kit è costituito da un braccio telescopico per riuscire a raggiungere i soffioni posizionati anche molto in alto, un rullo in gomma e una spatola per le bocche a cascata.
Mentre il flusso d'acqua scorre attraverso gli ugelli della funzione "pioggia" contemporaneamente muovere il rullo in tutte le direzioni sulla superficie del Soffione. Le tettarelle verranno così compresse in modo da sfaldare il calcare all'interno e farlo uscire attraverso il flusso d'acqua, ripetendo questa azione fino ad ottenere un getto lineare d'acqua attraverso tutte le uscite.
La spatola viene invece utilizzata per le cascate d'acqua. Fissata sull'asta telescopica, dopo aver aperto il flusso d'acqua, è sufficiente muovere avanti e indietro la spatola rimuovendo così il calcare fino a riportare il corretto funzionamento del getto d'acqua che assume la caratteristica forma a V.

FIXING WALL

Gessi built in parts can be installed both in the rear and in the front part. For the rear installation, the box can be installed directly on the wall. The built in part will be correctly secured to the wall by fixing the screws on the rear part, while on the front part the screws will be fixed on apposite wings. Any Gessi built in part have apposite surfaces, both in square or round outer boxes, where to position the level, in order to install the built in part in a proper way, reducing the mistake chances. The boxes are equipped with specific colored rings meant for the installation of the respective pipes.
I nostri incassi possono essere fissati nella parte posteriore, fissando la scatola direttamente sul muro, o nella parte anteriore. Applicando le viti nella parte posteriore, l'incasso rimane ben fisso al muro, nella parte anteriore le viti vengono fissate su delle seconde alette. Tutti gli incassi Gessi hanno la possibilità di posizionare la bolla, al fine di poter installare l'incasso nel modo migliore, riducendo al minimo le possibilità di errore, con superfici apposite per il posizionamento della livella sia nelle scatole di sezione quadrata che in quelle di sezione tonda. Le scatole sono dotate di appositi anelli colorati per l'installazione delle rispettive mandate.

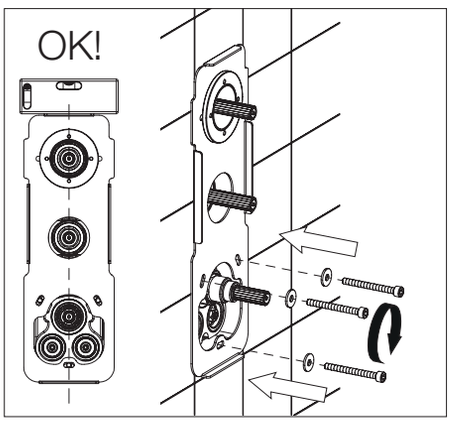

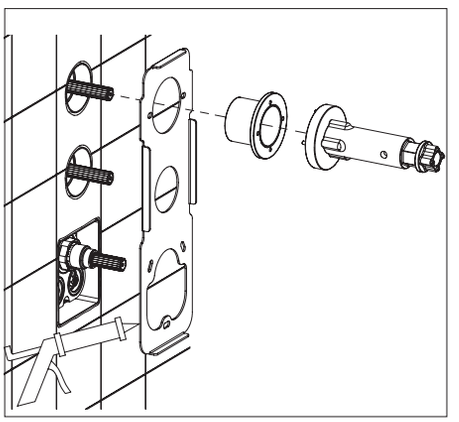

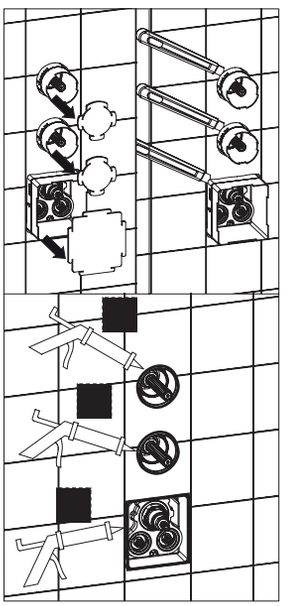

ADJUSTMENT INSTALLATION MISTAKE

Another innovation of great importance is the chance to correct any installation mistake of the external parts. It could be quite difficult to install correctly a big and heavy built in body such as thermostatic ones. Now, thanks to a special plate made exclusively by Gessi, mistakes till 1,5 degrees can be fixed. It will be enough to position the supplied plate on the installed built in part and it will help to align the external parts to the tiles.
Un'altra innovazione molto importante è la possibilità di correggere nella parte esterna gli eventuali errori avvenuti durante l'installazione.Un corpo posizionato verticalmente o orizzontalmente, soprattutto di dimensioni abbastanza importanti come ad esempio termostatici alta portata, possono essere aggiustati errori fino a 1,5 gradi, con il posizionamento di una piastra in esclusiva di Gessi, per poter allineare le fughe delle piastrelle sulle linea delle parti esterne.

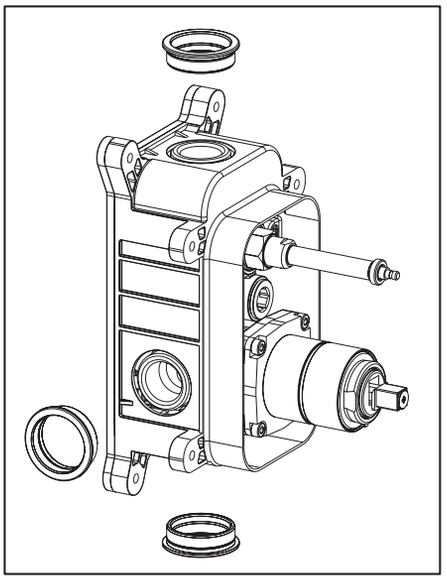

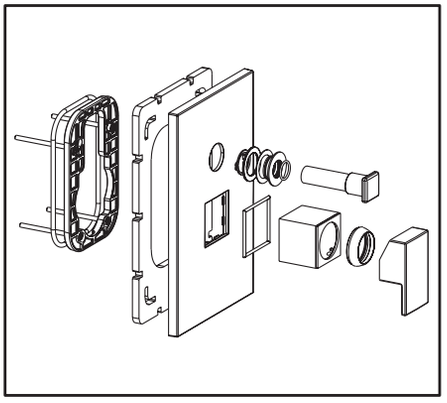

GESSI

INSIDE SAFETY
OUTSIDE SAFETY

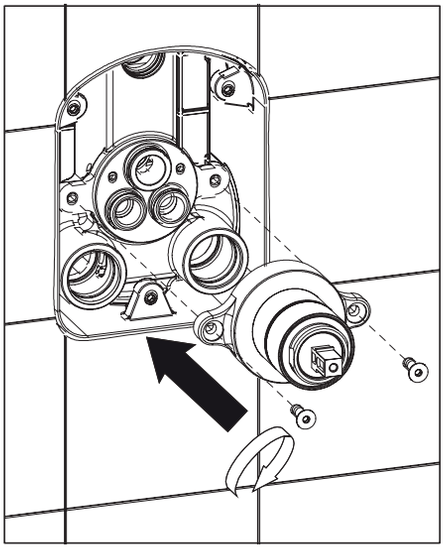

One of the greatest strength of Gessi is the technology of the built-in parts' safety and of their related external parts; it allows not to disperse any water inside the wall and to protect it from any external infiltration. In every position of entry and exit of the hoses, built-in parts have special gaskets that keep every potential leak inside the box. The customer, anyway, is able to notice the leaks thanks to some special rides under the external parts. So, in case of leaks, water will get out of the box without penetrating into the wall and causing extensive damages. During water supply, specific gaskets prevent the entry of water inside the box. Water that runs on the wall cannot indeed penetrate inside the box because of sophisticated innovations that keep the water outside the flange that is under the finished plate. Therefore, Gessi ranks as a top quality Company in the construction of hotels and big buildings.
Un grande punto di forza per Gessi è la tecnologia che contraddistingue la sicurezza degli incassi e delle relative parti esterne che permette di non disperdere acqua dall'interno del muro e che la parte estetica protegga il muro da eventuali infiltrazioni dall'esterno.
In ogni posizione d'ingresso e uscita tubi gli incassi hanno apposite guarnizioni che trattengono eventuali perdite all'interno della scatola, che il cliente percepirà vedendo delle uscite d'acqua attraverso appositi passaggi attraverso le flange al di sotto della parte estetica e con una apposita sezione nelle guarnizioni posteriori alle piastre di finitura.
In questo modo, in caso di eventuali perdite, l'acqua uscirà dalla scatola senza invadere il muro ed evitare quindi danni ingenti.
Durante l'erogazione dell'acqua, specifiche guarnizioni evitano l'ingresso dell'acqua all'interno della scatola. L'acqua che corre sul muro, infatti, non potrà entrare all'interno della scatola grazie a sofisticate innovazioni che permettono di mantenere l'acqua all'esterno della flangia posta al di sotto della piastra di finitura e grazie a guarnizioni poste in prossimità della cartuccia e del deviatore. Gessi si posiziona quindi ai più alti livelli come qualità per la costruzione di hotel e grandi palazzi.

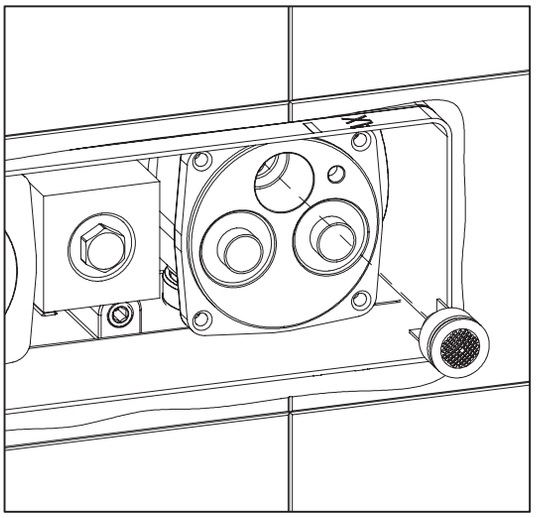

MUFFLER DEVICE CLASS 1

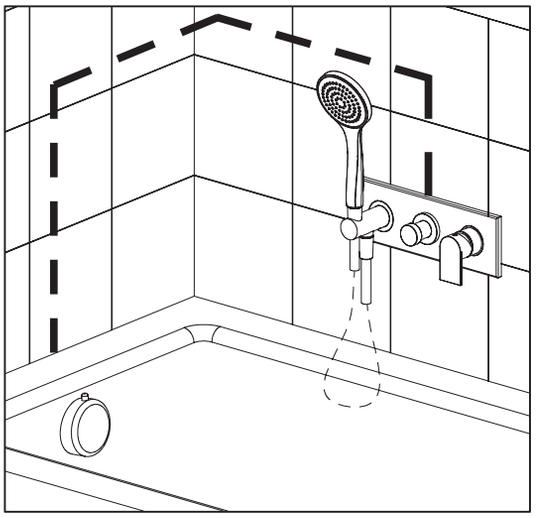

Two devices placed near the cartridge allow noise reduction. Water running in the hoses has pressure and flow changes, which transmit a frequency inside the built-in part. Silicone systems of Gessi's technology allow incoming water with this vibration to come out softly, reducing the noise by 30/40% approximately.
Due dispositivi posti in prossimità della cartuccia permettono la riduzione del rumore. L'acqua che corre nelle tubazioni ha variazioni di flusso e di pressione, che trasmettono una frequenza all'interno del corpo incasso. I sistemi siliconici delle tecnologia Gessi permettono che l'acqua in ingresso con questa vibrazione abbia un uscita molto più soft, riducendo cosi il rumore di circa il 30/40%.

PRESSURE | 3 bar noise **< 20 db**
PRESSURE | 5 bar noise **< 25 db**

NON-RETURN SYSTEM UNI EN 1717

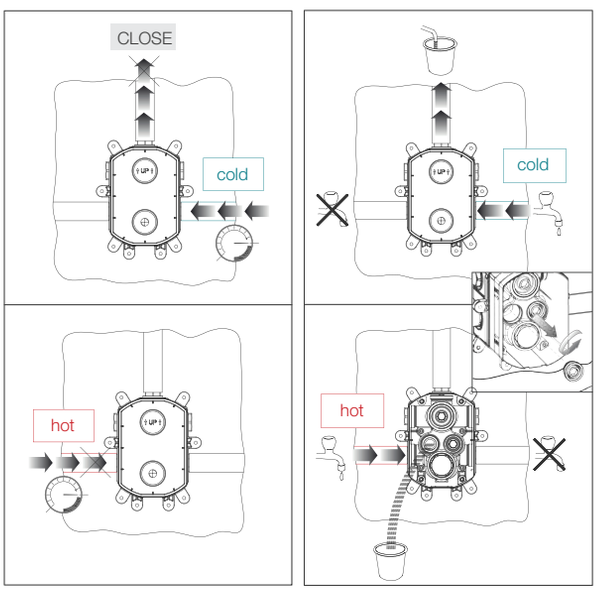

It's a complex system that avoids the contamination of clean water with dirty water in the distribution system. In specific cases, when suction inside the tubing is possible, this system ensures the stop of polluted water up to the non-return valve. Device that complies with the UNI EN 1717 on the prevention on pollution of potable water inside buildings in order to prevent pollution by backflow. A fluid backflow in a system of supply of potable water may occur due to a partial vacuum (pressure drop) in the potable water supply system (caused for example by the operation of a valve, by the bursting of a tube, from the operation of an auxiliary pump, the excessive water demand in one part of the system, the water taken in emergency from a fire hydrant.
Types of installation concerned are: Bath mixer with hand shower, Bath mixer with inlet port below the edge of the bath

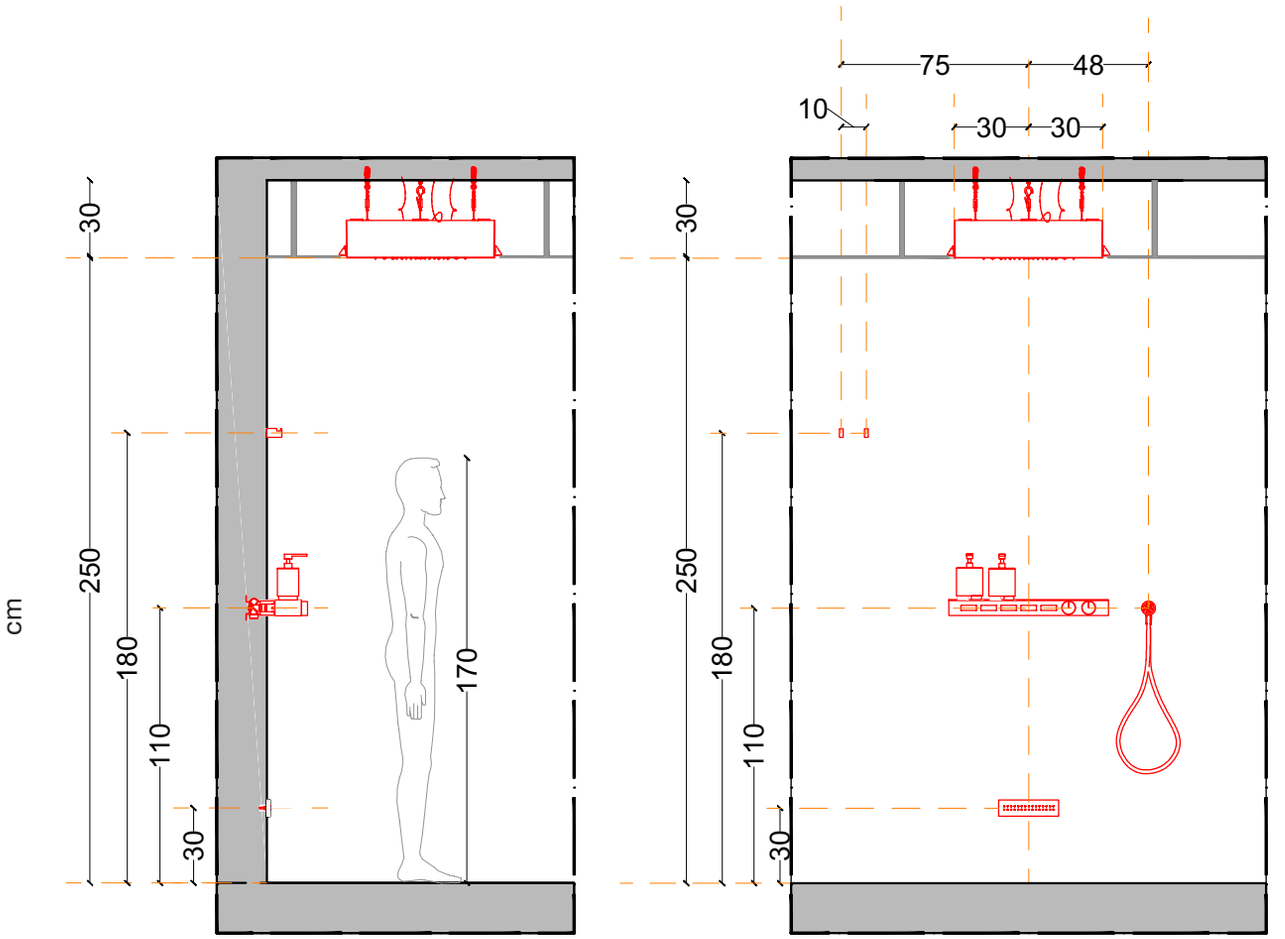

Sistema complesso che garantisce la non contaminazione dell'acqua sporca nell'impianto di distribuzione dell'acqua pure. In casi specifici dove ci potrebbe essere l'effetto risucchio delle tubazioni, questo sistema garantisce lo stop dell'acqua inquinata fino alla valvola di non ritorno. Dispositivo che rispetta la normativa UNI EN 1717 riguardante la prevenzione sull' inquinamento dell'acqua potabile all'interno di immobili specifico per evitare l'inquinamento causato dal riflusso. Un riflusso di fluido (retrosifonamento) in un sistema di approvvigionamento di acqua potabile può verificarsi a causa di una depressione parziale (caduta di pressione) nel sistema di approvvigionamento dell'acqua potabile (causata per esempio dal funzionamento di una valvola, dallo scoppio di un tubo, dal funzionamento di una pompa ausiliaria, dall'eccessiva richiesta d'acqua in una parte del sistema, dall'acqua prelevata in caso di emergenza da un idrante antincendio. Le tipologie di installazione interessate sono: Miscelatore vasca con doccetta manuale, Miscelatore vasca con attacco di ingresso al di sotto del bordo della vasca

TEST AND CLEAN WATER SUPPLY CONNECTION EN 806-4

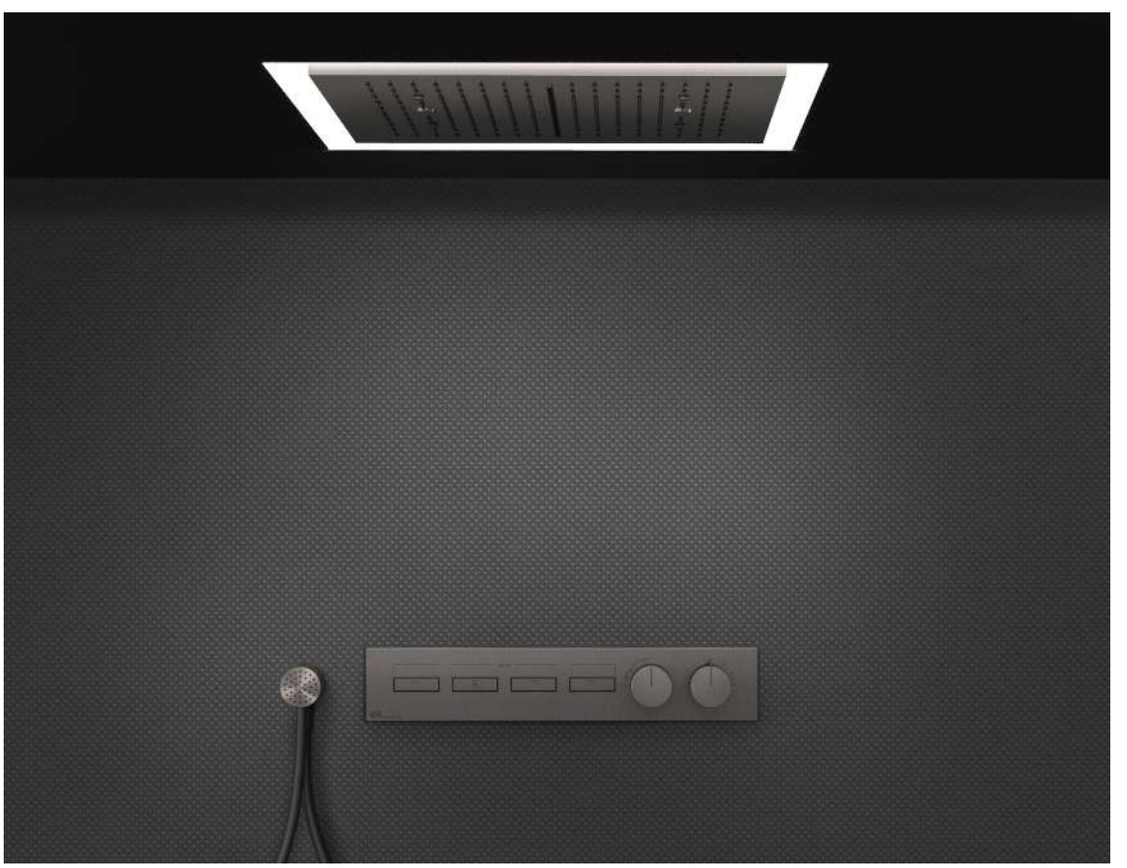

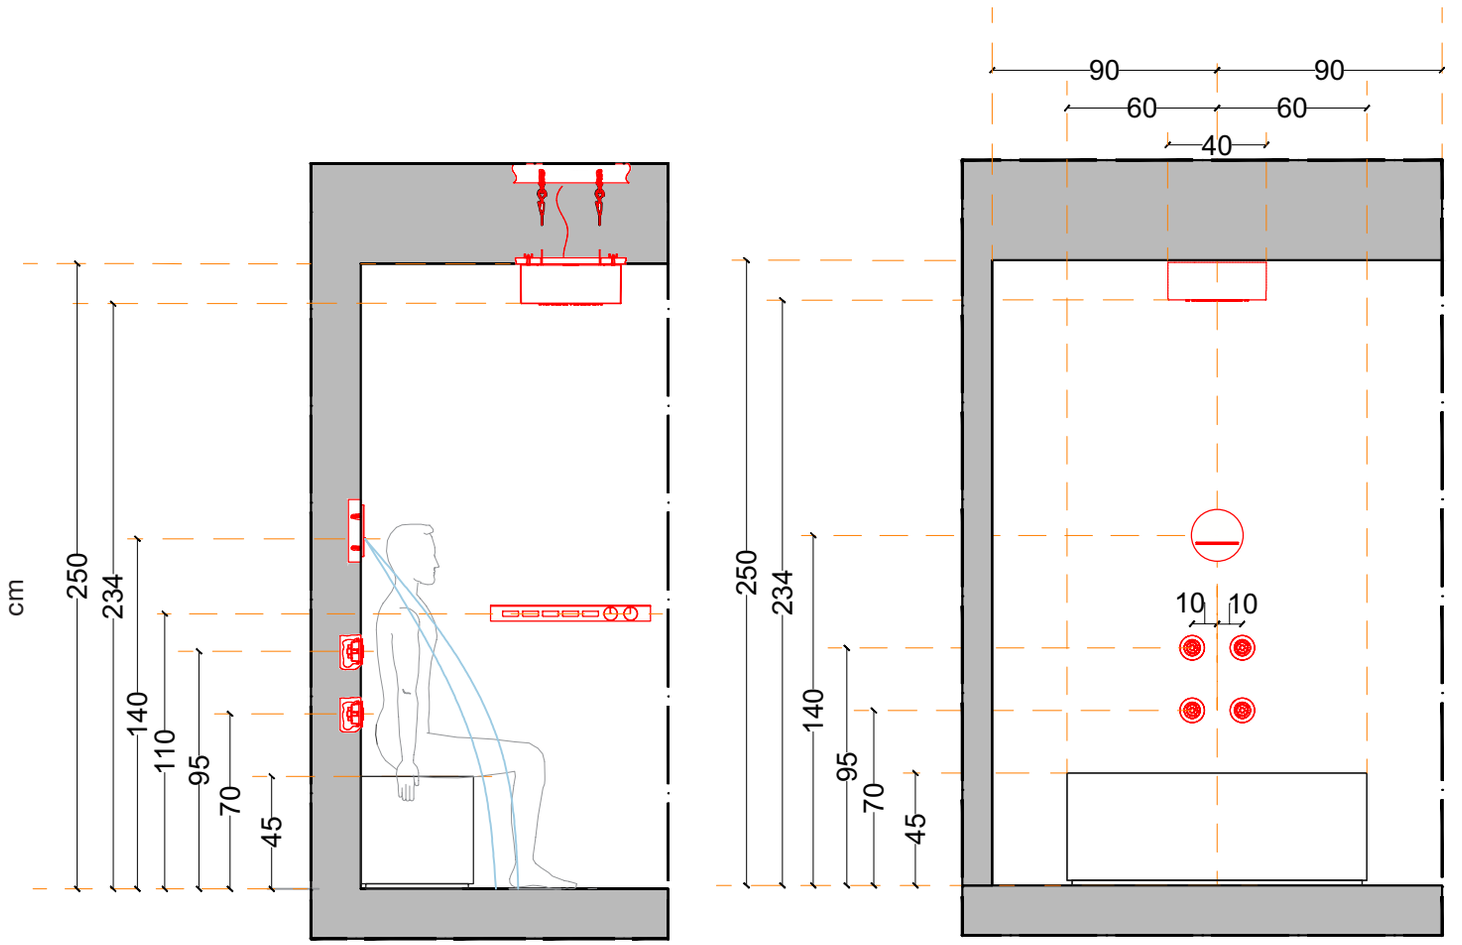

It is possible to test and clean the system after the installation of Gessi built in parts. According to UNI EN 806-4 regulation, a standard procedure allows the plumber to correctly accomplish the simple operations needed to best grant the tests on the system. Functionality components such as cartridges, filters and diverters are not included anymore inside Gessi built in boxes. On the other hand, caps are installed on the built in part: with simple connections they allow the system to be pressured and the internal parts to be cleaned without damaging any delicate component.

I nostri incassi hanno la possibiltà di Collaudo dell'impianto e pulizia dopo l'installazione. Secondo la norma UNI EN 806-4 una Procedura standard permette all'idraulico di eseguire nel modo corretto le semplici operazioni necessarie per garantire al meglio i test sull'impianto. All'interno della scatola non sono più presenti le parti di funzionalità come cartucce filtri e deviatori, ma sono presenti tappi che con semplici collegamenti permettono di mettere in pressione e poter lavare le parti interne senza danneggiare in alcun modo le parti più delicate.

The all high water-flow capacity thermostatic mixer controls can be set up in the vertical position (with hot and cold water-flow facing the bottom) or in the horizontal position (with hot and cold water-flow facing the right hand-side).
It works both with electrical and gas water heater, Central heating systems or Wall and floor boiler
Tutti i comandi termostatici ad alta portata possono essere installati in verticale (con entrate dell'acqua calda e fredda rivolte verso il basso) o in orizzontale (con entrate dell'acqua calda e fredda rivolte verso il lato destro).
Funzionamento: Sia con scaldabagni a gas che elettrici ad accumulo, Impianti centralizzati o Caldaie murali e da terra ad accumulo

Hermetic built-in box. *For installation on wall or blasterboard panel.*
Box incasso a tenuta stagna. Per installazione su pareti in muratura o cartongesso.

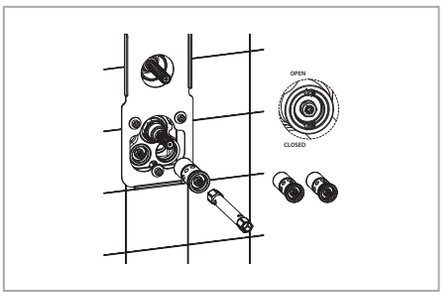

Joint washers between built-in part and wall. *For a perfect hydraulic tightness.*
Guarnizione di tenuta tra corpo incasso e parete. Per una perfetta tenuta idraulica tra muratura e corpo mix incasso.

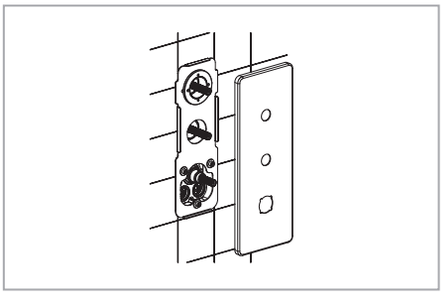

Universal built-in part fitting all collections. *External parts can be one plate or single plates.*
Parte incasso universale da abbinare alle varie collezioni. Le parti esterne si suddividono in due tipologie: piastra unica e piastre singole.

43103 - 43105 - 43107 - 43109

3/4" filters with Non Return Valves and water flow limiting/closure device. *In addition to keeping the mixer cleaned and avoiding water flow return, the water limitation/closure device allows hot and cold water pressure/flow to be balanced as well as the water flow stop in case of maintenance.*
Filtri 3/4" con valvole di non ritorno e sistema di limitazione/chiusura acque. Oltre a mantenere il miscelatore pulito dalle impurità dell'acqua e impedire il ritorno a monte delle acque, il sistema di limitazione e chiusura acque integrato, consente di bilanciare le pressioni/portate tra acque calda e fredda e all'occorrenza di chiudere totalmente l'alimentazione per eseguire eventuali interventi di manutenzione.

Sealing flange indipendent of the aesthetic covering flange. *It helps installation, guarantees a perfect sealing and simplifies the periodical maintenance for filters cleaning.*
Flangia di tenuta a muro indipendente dalla piastra di copertura estetica. Facilita l'installazione, garantisce una tenuta perfetta e semplifica notevolmente la manutenzione periodica per l'eventuale pulizia dei filtri.

• *Minimum pressure of working: 0.5 bar*
• *Maximum operating pressure: 5 bar (For higher hydraulic pressures we recommend to install a pressure reducer)*
• *Pressure of working advised: 3 bar*
• *Safety block at 38° C*
• *Minimum working temperature 3° C COLD WATER (suggested 15° C)*
• *Maximum working temperature 80° C HOT WATER (suggested 65° C)*
• *Suggested temperature differential: 50° C*
• *Safety system with water supply block in case either hot or cold water is missing*
• *Supplied with steel filter to keep the impurity out*

Features of high performance thermostatic mixers from 2 till 5 exits with option of one or separate restricted wall controls:

• *All the outflows are unconnected (they can be open at the same time – obviously in this case the water-flow capacity divides onto all the open ways)*
• *The thermostatic mixers with 2 outflows have the water-flow towards the right hand-side (or towards the top if they are sep up in the horizontal position)*
• *The thermostatic mixers with 3 outflows have two-ways water-flow towards the right hand-side and one at the top (or two ways towards the top and one towards the left side if they are set up in the horizontal position)*
• *The thermostatic mixers with 4 outflows have all the water-flow gateways towards the right hand-side (or all the gateways towards the top if they are set up in the horizontal position)*
• *The thermostatic mixers with 5 outflows have four-ways water-flow towards the right hand-side and one at the top (or four ways towards the top and one towards the left side if they are set up in the horizontal position)*
• *To three bars, the single gateway water-flow capacities are about 40 l/min*

The thermostatic mixers with 5 outflows: They are totally different from the others as they are made with a stopcock and one diverter with five positions. The outflows can be selected only one by one and therefore they cannot be matched; the water-flow can be open or closed in any position of the switch by operating on the stopcock.
The thermostatic mixer outflows in the vertical position are two on the right hand-side, one on the top and two on the left hand-side
The thermostatic mixer outflows in the horizontal position are two on the top, one on the left hand-side and two on the bottom
To 3 bars, the one single-gateway water-flow capacities are about 30 l/min

Thermostatic mixer with the option of separate wall control (art. 43281-43283): *A separaterd thermostatic group installation is possible for single-plated thermostatics; regarding quantity and positionning of thermostatic exits, they can be installed according to one's needs.*

ATTENTION: It is strongly recommended that the product is only installed by a fully qualified plumber who is aware of the installation and the pressure requirements of the system (both for the heating systems above mentioned and others).

• Pressione minima di esercizio: 0.5 bar
• Pressione massima di esercizio: 5 bar (per pressioni superiori si raccomanda di installare un limitatore di pressione)
• Pressione d'esercizio consigliata: 3 bar
• Blocco di sicurezza a 38 °C
• Temperatura minima di esercizio: 3 °C FREDDA (consigliata 15 °C)
• Temperatura massima di esercizio: 80 °C CALDA (consigliata 65 °C)
• Differenziale termico consigliato: 50 °C
• Sistema di sicurezza con blocco dell'erogazione, in caso di mancanza di una delle due acque
• Dotati di filtri in acciaio inox per il trattenimento delle impurità

Caratteristiche dei termostatici alta prestazione da 2 a 5 uscite con piastre unite e singole vincolate:

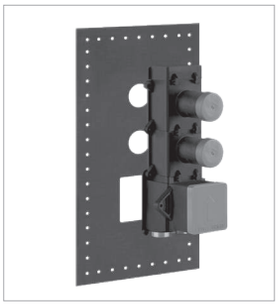

• Tutte le uscite sono indipendenti (si possono aprire in contemporanea – in questo caso, logicamente, la portata si ripartisce su tutte le vie aperte)
• I termostatici a 2 uscite presentano l'erogazione dell'acqua verso destra (o verso l'alto se installati in orizzontale)
• I termostatici a 3 uscite presentano due vie di erogazione dell'acqua verso destra e una in alto (o 2 verso l'alto e una verso sinistra se installati in orizzontale)
• I termostatici a 4 uscite presentano tutte le vie di erogazione dell'acqua verso destra (o tutte verso l'alto se installati in orizzontale)
• I termostatici a 5 uscite presentano quattro vie di erogazione dell'acqua verso destra e una in alto (o 4 verso l'alto e una verso sinistra se installati in orizzontale)
• A 3 bar, le portate per una singola uscita sono di 40 l/min circa

I termostatici a 5 uscite: Si differenziano completamente dagli altri, in quanto composti da un rubinetto d'arresto e un deviatore con cinque posizioni. Le uscite possono essere selezionate solo singolarmente e quindi non si possono abbinare; in qualsiasi posizione del deviatore si può aprire e chiudere l'erogazione dell'acqua agendo sul rubinetto d'arresto
Le uscite per i termostatici in verticale si presentano 2 a destra, una in alto e 2 a sinistra
Le uscite per i termostatici in orizzontale si presentano 2 in alto, una a sinistra e 2 in basso
A 3 bar, le portate per una singola uscita sono di 30 l/min circa

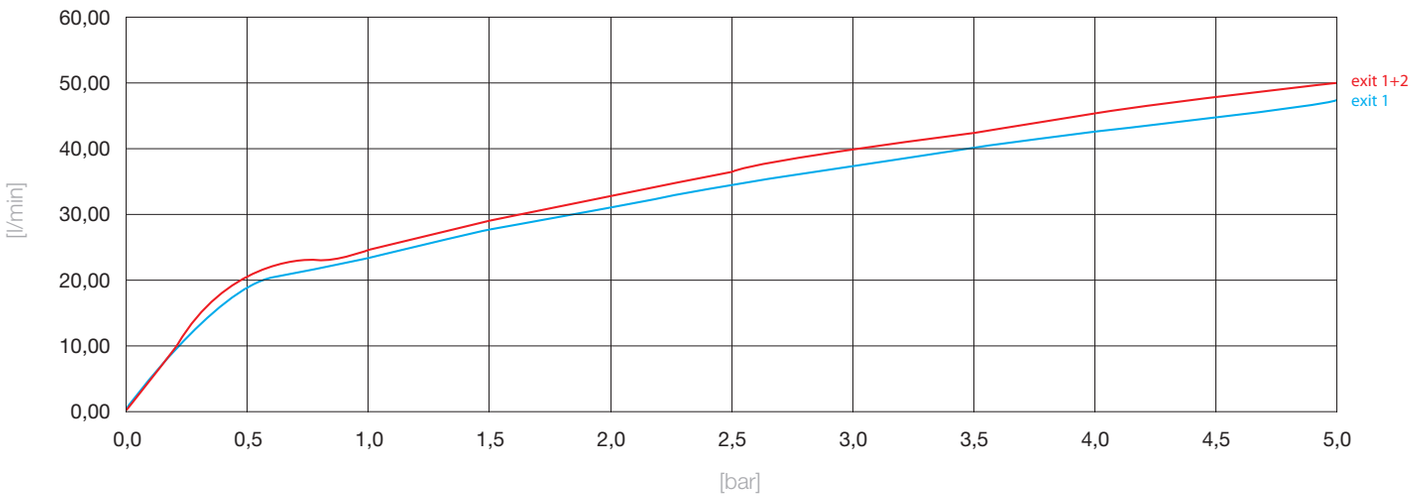

Termostatico con piastre singole non vincolate (art. 43281-43283): Per i termostatici con piastre singole è possibile l'installazione del gruppo termostatico separato; le uscite possono essere installate in quantità e posizione a seconda delle esigenze.

ATTENZIONE: Si consiglia, di contattare il proprio termoidraulico di fiducia per una corretta e funzionale installazione del miscelatore termostatico, sia con i dispositivi di riscaldamento sopraelencati, che con altre tipologie.

Funzionamento
Il nebulizzatore è un sistema che consente la dispersione nell'aria di minutissime goccioline d'acqua. La particolarità che ne contraddistingue il funzionamento è che queste micro-particelle, a seconda delle dimensioni e della velocità, assorbono il calore dall'ambiente circostante (evaporando) e/o lo disperdono (raffreddandosi). In ogni caso, il risultato ottenuto è l'erogazione di un flusso nebulizzato a temperatura non elevata, tale da garantire un benefico effetto di refreshment.
I tubi d'alimentazione devono essere sciacquati con cura prima dell'installazione del dispositivo, in modo che non rimangano trucioli, residui di saldatura o canapa, o altre impurità all'interno dei tubi. Attraverso tubazioni non sciacquate a fondo o attraverso la rete idrica generale, nel dispositivo possono entrare corpi estranei in grado di danneggiare guarnizioni/o-ring. Si raccomanda pertanto di dotare anche l'impianto generale di filtri.
Pressione minima per il corretto funzionamento: > 2 Bar.

Functioning
The nebulizer is a system that allows dispersion into the air of microscopic water droplets. The operation of these micro-particles features, according to sizes and speed, the absorption of heat from the surrounding environment (evaporating) and/or its dispersion (cooling).
Anyway the result obtained is the supply of an atomized flow at high temperature, such as to guarantee a beneficial refreshment effect.
The feeding pipes have to be rinsed carefully before the installation of the device so that there won't remain shavings, sealing or hemp residues, or other impurities inside the pipes. Through pipes not thoroughly rinsed or through the general water network, in the device foreign bodies can enter that could damage gaskets /o-ring. So filters should be installed also on the general system.
Minimum pressure for proper operation: > 2 Bar.

Cristalplant®

Materiale “Solid Surface”, Bianco Opaco, Made in Italy
Solid Surface Material, Matt White, Made in Italy
Matériau « Solid Surface «, Blanc Mat, Made in Italy
Material “Solid Surface”, Blanco Opaco, Made in Italy

Cristalplant® è un materiale composito tecnologicamente avanzato, non assorbente, ipoallergenico e non tossico, riciclabile al 100%, ignifugo, igienico, resistente e piacevole al tatto per la sua finitura vellutata simile alla pietra naturale. É sufficiente l’uso di acqua e comuni detergenti con una spugna abrasiva per rimuovere macchie e sporco dalla superficie.

Cristalplant® is a unique, technologically advanced composite material, non-absorbent, hypoallergenic and non-toxic, 100% recyclable, fireproof, hygienic, durable and pleasant-touching, easy on the hands for its velvety texture, similar to natural stone. It is enough to clean Cristalplant® with soapy water or household detergents (even abrasive) in order to remove the majority of stains and dirt from the surface.

Cristalplant® est un matériau composite, technologiquement avancé, non absorbant, hypoallergénique et non toxique, recyclable à 100% ignifuge, hygiénique, résistant et agréable au toucher grâce à sa finition veloutée semblable à la pierre naturelle. L’utilisation d’eau et de détergents courants avec une éponge abrasive est suffisante pour enlever les taches et les impuretés de la surface.

Cristalplant® es un material compuesto tecnológicamente avanzado, no absorbente, hipoalergénico y no toxico, reciclable al 100%, inífugo, higiénico, resistente y agradable al tacto por su acabado suave similar a la piedra natural. Es suficiente el uso de agua y detergentes comunes con una esponja abrasiva para remover manchas y suciedad de la superficie.

DESIGN:
- It allows the creation of products with shapes and dimensions unfit for sanitary ceramic (e.g. freestanding bathtubs and washbasins)
- Pleasant to touch due to its velvet finish, similar to natural stone
- Pieces can be split and invisibly joint, allowing customization
- Integrated slot overflow in the thickness of the washbasin or bathtub
QUALITY:
- ECO material, fully recyclable
- Material very similar to Corian, but with better technical performances
- Does not absorb
- Shock resistant
- Does not turn yellow and optimally stands the sun
- Fireproof (Class 1)
- Resistant to intense heat up to 140°C
- Specific formulation and productive technology, exceeding restrictive European regulations for bathroom furniture (e.g. bathtubs and washbasins)
- 100% Italian Patent and 100% Made in Italy
CARE & MAINTENANCE:
- Clean daily with standard products, even abrasive products
- Burns and stubborn stains can be removed with a standard abrasive sponge (e.g. Scotch Brite)
- External scratches, even deep ones, can be easily removed

DESIGN:
- Permette la realizzazione di articoli con forme e dimensioni impensabili per la ceramica sanitaria (es. vasche e lavabi freestanding)
- Piacevole al tatto per la sua finitura vellutata simile alla pietra naturale
- Può essere tagliato e giuntato permettendo la personalizzazione su misura senza che le giunture siano visibili
-Troppopieno a taglio, integrato nello spessore di vasca o lavabo
QUALITA’:
- Materiale ECO, completamente riciclabile
- Materiale molto simile al Corian, ma con migliori prestazioni tecniche
- Non assorbe
- Resistente agli impatti
- Non ingiallisce e resiste ottimamente al sole
- Ignifugo (Classe 1)
- Resiste al calore intenso fino a 140°C
- Specifica formulazione e tecnologia produttiva che soddisfa ed eccede le restrittive normative europee per l’arredo bagno (es. vasche e lavabi)
- Brevetto 100% italiano e 100% Made in Italy
CURA E MANUTENZIONE:
- Può essere pulito quotidianamente con i normali prodotti in commercio, anche abrasivi
- Le bruciature e le macchie più ostinate possono essere rimosse con l’ausilio di una comune spugna abrasiva
- Eventuali graffi, anche profondi, possono essere eliminati con facilità

DESIGN :
-Il permet la réalisation de produits aux formes et dimensions irréalisables avec de la céramique
Sanitaire (Ex : Baignoire centre pièce ou vasques au sol)
-Il est agréable au toucher, pour sa finition veloutée semblable à la pierre naturelle
-Il peut être coupé et assemblé permettant la personnalisation sur mesure sans joints visibles
-Trop plein intégré dans l’épaisseur de la baignoire ou de la vasque
QUALITE’
- Matériel ECO, totalement recyclable
- Matériel semblable au Corian, mais avec des prestations techniques supérieures
- Il n’absorbe pas
- Résistant aux impacts
- Il ne jaunit pas et possède une excellente résistance aux rayonnements UV
- Ignifuge (classe 1)
- Résistant à la chaleur intense jusqu’à 140°C
- Formulation spécifique et technologie productive qui satisfont et dépassent les normes Européennes très restrictives pour l’ameublement de la salle de bain (Ex : baignoires et vasques)
- Brevet 100% Italien et 100% Made in Italy
ENTRETIEN ET NETTOYAGE
- Il peut être nettoyé quotidiennement avec les produits courants du commerce, même abrasifs
- Les brûlures et les taches résistantes peuvent être enlevées avec une éponge abrasive
- Les éventuelles rayures, même profondes, peuvent être enlevées très facilement

DISEÑO:
- Permite la realización de artículos con formas y dimensiones impensables con la cerámica sanitaria (p.ej.bañeras y lavabos exentos)
- Agradable al tacto debido a su acabado similar a la piedra natural.
- Puede ser cortado y soldado permitiendo la personalización a medida sin que las uniones sean visibles.
- Rebosadero tipo corte, integrado en el propio espesor de las paredes del lavabo o bañera.
CALIDAD:
- Material ECO, completamente reciclable
- Material muy parecido al Corian, pero con mejores prestaciones técnicas
- No absorbe
- Resistente a los impactos
- No amarillea y resiste óptimamente a la luz solar
- Inífugo, clase 1
- Resiste al calor intenso , hasta 140º
- Su específica formulación tecnológica y productiva satisface y supera las restrictivas normas europeas para equipamiento de baño (p.ej. bañeras y lavabos)
- Patente 100% italiana y fabricado en Italia
CUIDADO Y MANTENIMIENTO
- Puede ser limpiado cotidianamente con los productos que se encuentran en el mercado, incluidos aquellos que son abrasivos
- Las manchas más persistentes pueden ser retiradas con la ayuda de una esponja abrasiva común.
- Eventuales rayas más profundas pueden ser eliminadas con facilidad.

Ceramica

Vitreous China & Fireclay, Gloss White, Made in Italy
Vitreous China & Fireclay, Bianco Lucido, Made in Italy
Vitreous China & Fireclay, Blanc brillant, Made in Italy
Vitreous China & Fireclay, Blanco brillante, Made in Italy

The sanitary ceramic is a natural material, made by water and clay, used for centuries. It is a extremely hygienic material, endowed with an ultra-resistant glaze that provides better performances than any other non-ceramic material. It is enough to clean it with soapy water or household detergents (even abrasive) in order to remove stains and dirt from the surface.

La ceramica sanitaria è un materiale naturale, realizzato con acqua e argilla ed utilizzato da secoli. E' un materiale estremamente igienico, dotato di uno smalto ultra resistente che garantisce prestazioni superiori a qualsiasi altro materiale non ceramico. É sufficiente l'uso di acqua e comuni detergenti con una spugna anche leggermente abrasiva per rimuovere macchie e sporco dalla superficie.

Le céramique sanitaire est un matériau naturel, réalisé avec de l'eau et de l'argile et utilisé depuis des siècles. Il s'agit d'un matériau extrêmement hygiénique, pourvu d'un émail assez résistant qui garantit des performances supérieures à n'importe quel autre matériau non céramique. L'utilisation d'eau et de détergents courants avec une éponge même légèrement abrasive est suffisante pour enlever les taches et les impuretés en surface

La cerámica sanitaria es un material natural, realizado con agua y arcilla utilizado desde siglos atrás. Es un material extremadamente higiénico, dotado de un esmalte ultra resistente que garantiza prestaciones superiores cualquier otro material no cerámico. Es suficiente el uso de agua y detergentes comunes con una esponja ligeramente abrasiva para remover manchas y suciedad de la superficie.

DESIGN:
- It allows the creation of products of great design (e.g. toilets and bidets), bound by restrictive regulations, which can not be made of other materials
- Nicely smooth and hygienic glazed surface
- It is traditionally the most valued material because of its funcionality in the bathroom
- Overflow integrated in the thickness of the washbasin

QUALITY:
- Ceramic is in itself a natural product, made with clay and water and used for centuries
- Material with ultra-resistant glaze, ensuring better performance than anyother non-ceramic material
- It does not absord and does not stain
- Resistant to scratches and abrasion
- Still unmatched shining and purity, typical of Italian production
- It does not turn yellow, it is practically an eternal material
- Resistant to intense heat and burns
- 100% Made in Italy

CARE & MAINTENANCE:
- Clean daily with non-aggressive products and delicate clothes
- Also the most stubborn stains can be easily removed with the use of the most common products

DESIGN:
- Permette la realizzazione di articoli di grande design, e vincolati da restrittive normative, come vasi e bidet, che non possono essere realizzati in altri materiali
- Superficie smaltata, piacevolmente liscia e igienica
- E' il materiale tradizionalmente più apprezzato per gli elementi funzionali dell'arredo bagno
- Troppopieno, integrato nello spessore del lavabo

QUALITA':
- La ceramica è di per sé un prodotto naturale, realizzato con acqua e argilla, ed utilizzato da secoli
- Materiale dotato di smalto ultra resistente che garantisce prestazioni superiori a qualsiasi altro materiale non ceramico
- Non assorbe e non si macchia
- Resistente ai graffi e all'abrasione
- Brillantezza e purezza caratteristiche della produzione italiana, ancora ineguagliate
- Non ingiallisce, materiale praticamente eterno
- Resiste al calore intenso e alle bruciature
- 100% Made in Italy

CURA & MANUTENZIONE:
- Può essere pulito quotidianamente con i normali prodotti in commercio, anche leggermente abrasivi
- Anche le macchie più ostinate possono essere rimosse facilmente con i più comuni prodotti

DESIGN
- Ce matériau permet la réalisation d'articles au design remarquable soumis à des normes restrictives, tels que wc et bidets, qui ne peuvent pas être réalisés dans d'autres matériaux
- Surface émaillée, agréablement lisse et hygiénique
- Il s'agit du matériau traditionnellement le plus apprécié pour les éléments fonctionnels de la salle de bain
- Trop plein intégré dans l'épaisseur de la vasque

QUALITE'
La céramique est un produit naturel, réalisé avec de l'eau et de l'argile, utilisé depuis des siècles
- Matériau pourvu d'un émail assez résistant qui garantit des performances supérieures à n'importe quel autre matériau non céramique
- Il n'absorbe et ne se tache pas
- Résistant aux griffures et aux abrasions
- Brillant et pureté caractéristiques de la production italienne, encore inégalée
- Il ne jaunit pas, matériau pratiquement éternel
- Il résiste à la chaleur intense et aux brûlures
- 100 % Made in Italy

ENTRETIEN ET NETTOYAGE
Il peut être nettoyé quotidiennement avec les produits normalement vendus dans le commerce, même légèrement abrasifs
Même les taches les plus tenaces peuvent être enlevées facilement avec les produits les plus courants

DISEÑO:
- Permite la realización de artículos de gran diseño y vinculados a las restrictivas normas como inodoros y bidets, que no pueden ser realizados en otros materiales.
- Superficie esmaltada, agradablemente lisa e higiénica.
- Es el material tradicionalmente más apreciado para los elementos funcionales del equipamiento de baño.
- Rebosadero integrado en el espesor del lavabo.

CALIDAD:
- La cerámica sanitaria es un material natural, realizado con agua y arcilla utilizado desde siglos atrás
- Material dotado de esmalte ultra-resistente que garantiza prestaciones superiores a cualquier otro material no cerámico.
- No absorbe y no se mancha
- Resistente a las rayas y a la abrasión.
- Brillantez y pureza característica de la producción italiana, aún no igualada.
- No amarillea, material prácticamente eterno
- Resiste al calor intenso y a la suciedad.
- 100% fabricado en Italia

CUIDADO Y MANTENIMIENTO
- Puede ser limpiado cotidianamente con los productos que se encuentran en el mercado, incluso ligeramente abrasivos
- Incluso las manchas más persistentes pueden ser retiradas con los productos de limpieza más comunes.

GESSI®

Gres

Semi-Opaque Gres, White/Black Gessi, Made in Italy
Gres Semi-opaco, Bianco/Nero Gessi, Made in Italy
Grès semi opaque, Blanc/Noir Gessi, Made in Italy
Gres Semi-opaco, Blanco/Negro Gessi, Made in Italy

Gres is a natural material, made by water and clay, used for centuries. It is a extremely hygienic material, endowed with an ultra-resistant glaze that provides better performance than any other non-ceramic material. It is enough to clean it with soapy water or household detergents (even abrasive) in order to remove stains and dirt from the surface.

Il gres è un materiale naturale, realizzato con acqua e argilla ed utilizzato da secoli. E' un materiale estremamente igienico, dotato di uno smalto ultra resistente che garantisce prestazioni superiori a qualsiasi altro materiale non ceramico. É sufficiente l'uso di acqua e comuni detergenti con una spugna anche leggermente abrasiva per rimuovere macchie e sporco dalla superficie.

Le grès est un matériau naturel, réalisé avec de l'eau et de l'argile utilisé depuis des siècles. Il s'agit d'un matériau extrêmement hygiénique, pourvu d'un émail assez résistant qui garantit des performances supérieures à n'importe quel autre matériau non céramique. L'utilisation d'eau et de détergents courants avec une éponge même légèrement abrasive est suffisante pour enlever les taches et les impuretés de la surface.

El gres es un material natural, realizado con agua y arcilla utilizado desde siglos atrás. Es un material extremadamente higiénico, dotado de un esmalte ultra resistente que garantiza prestaciones superiores cualquier otro material no cerámico. Es suficiente el uso de agua y detergentes comunes con una esponja ligeramente abrasiva para remover manchas y suciedad de la superficie

---

DESIGN:
- It allows the creation of products of great design, characterized by very thin edges and special surface finishes
- Semi-opaque glazed surface with exclusive Gessi colours, pleasant to touch
- Like sanitary ceramic, gres is a material traditionally valued for its technical performances

QUALITY:
- The Gres is in itself a natural product, made with clay and water and used since centuries
- Material with ultra-resistant glaze, ensuring better performance than anyother non-ceramic material
- Does not absorb or stain
- Resistant to scratches and abrasion
- Still unmatched shining and purity, typical of Italian production
- Does not deteriorate over time, it is practically an eternal material
- Resistant to intense heat and burns
- 100% Made in Italy

CARE & MAINTENANCE:
- Clean daily with non-aggressive products and delicate clothes
- Also the most stubborn stains can be easily removed with the use of the most common products

DESIGN:
- Permette la realizzazione di articoli di grande design, caratterizzati da bordi particolarmente sottili e finiture superficiali ricercate
- Superficie smaltata, semi opaca e connotata in colori esclusivi Gessi, gradevole al tatto
- Come la ceramica sanitaria, è materiale tradizio-nalmente apprezzato per gli elementi funzionali dell'arredo bagno

QUALITA':
- Il gres è di per sé un prodotto naturale, realizzato con acqua e argilla, ed utilizzato da secoli
- Materiale dotato di smalto ultra resistente che garantisce prestazioni superiori a qualsiasi altro materiale non ceramico
- Non assorbe e non si macchia
- Resistente ai graffi e all'abrasione
- Brillantezza e purezza caratteristiche della produzione italiana, ancora ineguagliate
- Non deteriora nel tempo, materiale praticamente eterno
- Resiste al calore intenso e alle bruciature
- 100% Made in Italy

CURA & MANUTENZIONE:
- Può essere pulito quotidianamente con i normali prodotti in commercio, anche leggermente abrasivi
- Anche le macchie più ostinate possono essere rimosse facilmente con i più comuni prodotti

DESIGN
- Ce matériau permet la réalisation d'articles au design remarquable, caractérisés par des bords particulièrement fins et des finitions à la surface recherchées
- Surface émaillée, semi-opaque et proposée dans des couleurs exclusives Gessi, agréable au toucher
- Comme la céramique sanitaire il s'agit d'un matériau traditionnellement apprécié pour les éléments fonctionnels de la salle de bain

QUALITE'
- Le grès est un matériau naturel, réalisé avec de l'eau et de l'argile utilisé depuis des siècles
- Matériau pourvu d'un émail assez résistant qui garantit des performances supérieures à n'importe quel autre matériau non céramique.
- Il n'absorbe pas et ne se tache pas
- Résistant aux griffures et aux abrasions
- Brillant et pureté caractéristiques de la production italienne, encore inégalée
- Matériau qui ne se détériore pas dans le temps, matériau pratiquement éternel
- Il résiste à la chaleur intense et aux brûlures
- 100% Made in Italy

ENTRETIEN ET NETTOYAGE
- Il peut être nettoyé quotidiennement avec les produits normalement vendus dans le commerce, même légèrement abrasifs
- Même les taches les plus tenaces peuvent être enlevées facilement avec les produits les plus communs

DISEÑO:
- Permite la realización de artículos de gran diseño , caracterizados por bordes particularmente sutiles y depurados acabados superficiales
- Superficie esmaltada semi-opaca realizada en colores especiales Gessi, agradable al tacto
- Como la cerámica sanitaria, es un material tradicionalmente apreciado para la realización de elementos funcionales del equipamiento de baño.

CALIDAD
- El gres es un material natural, realizado con agua y arcilla utilizado desde siglos atrás
- Material dotado de esmalte ultra-resistente que garantiza prestaciones superiores a cualquier otro material no cerámico.
- No absorbe y no se mancha
- Resistente a las rayas y a la abrasión.
- Brillantez y pureza característica de la producción italiana, aún no igualada.
- No se deteriora con el paso del tiempo , material prácticamente eterno
- Resiste al calor intenso y a la suciedad.
- 100% fabricado en Italia

CUIDADO Y MANTENIMIENTO
- Puede ser limpiado cotidianamente con los productos que se encuentran en el mercado, incluso ligeramente abrasivos
- Incluso las manchas más persistentes pueden ser retiradas con los productos de limpieza más comunes.

Gres Platino / Copper

Gres Platinum, Bright Platinum, Made in Italy
Gres Platino, Platino lucido, Made in Italy
Grès platine, Platine brillant, Made in Italy
Gres platino, Platino brillante, Made in Italy

Gres is a natural material, made by water and clay, used for centuries.
The true platinum finishing is varnished by hand, using two layers of paint and the surface is then coated by an invisible nano-molecular silicone layer that protects the precious finishing. For daily cleaning is necessary to clean with water and a microfiber cloth.

Il gres è un materiale naturale, realizzato con acqua e argilla ed utilizzato da secoli. La finitura in vero platino è applicata artigianalmente, tramite due mani di verniciatura a pennello e la superficie è rivestita da un invisibile strato siliconico nano molecolare che protegge la preziosa finitura. Per la pulizia quotidiana è necessario pulire deilcatamente con acqua ed un panno in microfibra.

Le grès est un matériau naturel, réalisé avec de l'eau et de l'argile utilisé depuis des siècles. La finition en platine véritable est appliquée artisanalement, grâce à deux couches de vernis appliquées au pinceau ensuite la surface est revêtue d'une couche à base de silicone nano-moléculaire invisible qui protège cette précieuse finition. Pour le nettoyage quotidien il est nécessaire de nettoyer le produit délicatement avec de l'eau et une éponge en microfibre

El gres es un material natural, realizado con agua y arcilla utilizado desde siglos atrás. El acabado en auténtico platino se aplica artesanalmente a través de dos capas de barniz a pincel de la superficie y recubierto por una invisible capa de silicona nanomolecular que protege el delicado baño. Para la limpieza cotidiana es preciso limpiar delicadamente con agua y un paño de microfibra.

DESIGN:
- It allows the creation of products of great design, characterized by very thin edges and special surface finishes
- Gloss glazed surface, coated with a unique varnishing made of true platinum (18 carat)
- The exclusive design and the platinum finish transform the washbasin in a true jewel-sculpture

QUALITY:
- The gres is in itself a natural product, made with clay and water and used for centuries
- The platinum finish is applied by hand, using two coats of paint brush
- The pieces are then fired in the kiln to fix the finishing
- Finally, the entire surface is coated with an invisible nano-molecular silicone layer that protects the precious finish
- The special finish is evenly delicate and requires more attention than a standard product
- The finish preserves the intrinsic characteristics of platinum, does not oxidize and remains shiny
- 100% Made in Italy

CARE & MAINTENANCE:
- Clean daily with non-aggressive products and delicate clothes
- The use of abrasive, aggressive products or solvents, can compromise the integrity of the precius platinum coating

DESIGN:
- Permette la realizzazione di articoli di grande design, caratterizzati da bordi particolarmente sottili e finiture superficiali ricercate
- Superficie smaltata, lucida e rivestita da una esclusiva verniciatura in vero platino 18 carati
- Il design esclusivo e la finitura platino trasformano il lavabo in una vera e propria scultura gioiello

QUALITA':
- Il gres è di per sé un prodotto naturale, realizzato con acqua e argilla, ed utilizzato da secoli
- La finitura in vero platino è applicata artigianalmente, tramite due mani di verniciatura a pennello
- I pezzi vengono successivamente cotti in forno per fissare la finitura
- Infine tutta la superficie viene rivestita da un invisibile strato siliconico nano molecolare che protegge la preziosa finitura
- Questa finitura speciale rimane comunque delicata e richiede maggiore attenzione, rispetto a un prodotto standard
- La finitura conserva le caratteristiche intrinseche del platino, non ossida e si mantiene lucente
- 100% Made in Italy

CURA & MANUTENZIONE:
- Può essere pulito quotidianamente con prodotti non aggressivi e panni delicati
- L'uso di prodotti abrasivi, solventi o agenti aggressivi, possono compromettere l'integrità del prezioso rivestimento in platino

DESIGN
- Ce matériau permet la réalisation d'articles au design remarquable, caractérisés par des bords particulièrement fins et des finitions de surface très raffinées
- Surface émaillée, brillante et revêtue par un vernis exclusif en platine véritable 18 carats
- Le design exclusif et la finition platine transforment la vasque en un véritable joyau sculptural

QUALITE'
- Le grès est un matériau naturel, réalisé avec de l'eau et de l'argile utilisé depuis des siècles
- La finition en platine véritable est appliquée artisanalement, par deux couches de vernis au pinceau.
- Les pièces sont successivement cuites au four pour fixer la finition
- Enfin toute la surface est revêtue par une couche à base de silicone nano-moléculaire invisible qui protège cette précieuse finition
- Cette finition spéciale est néanmoins délicate et demande une attention particulière par rapport à un produit standard
- La finition conserve les caractéristiques intrinsèques du platine, elle ne s'oxyde pas et reste brillante
- 100% Made in Italy

ENTRETIEN ET NETTOYAGE
- Il peut être nettoyé quotidiennement avec des produits non abrasifs et des chiffons délicats
- L'utilisation de produits abrasifs, solvants ou agents agressifs peut compromettre l'intégrité du revêtement en platine

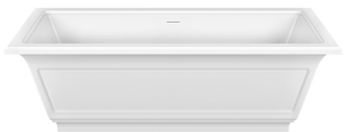

DISEÑO:
- Permite la realización de artículos de gran diseño , caracterizados por bordes particularmente sutiles y depurados acabados superficiales
- Superficie esmaltada, pulida y revestida de un exclusivo tratamiento en auténtico platino de 18 kilates
- El diseño exclusivo y el acabado platino transforman el lavabo en una auténtica escultura-joya

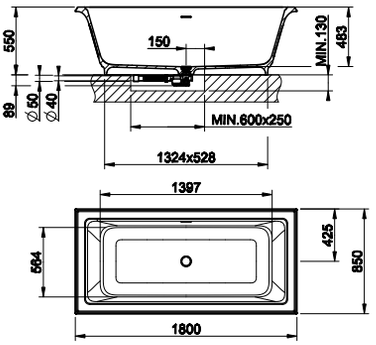

CALIDAD:
- El acabado en auténtico platino se aplica artesanalmente, mediante dos capas de barniz a pincel.
- Las piezas pasan un proceso de cocción en horno par fijar el acabado.
- Finalmente toda la superficie se recubre con una capa invisible de silicona nanomolecular que protege el delicado acabado
- Este acabado especial es más delicado y requiere mayor atención, respecto a un producto standard
- El acabado conserva las características intrínsecas del platino, no se oxida y se mantiene brillante
- 100% Made in Italy

CUIDADO Y MANTENIMIENTO
- Puede ser limpiado cotidianamente con productos no agresivos y paños delicados.
- El uso de productos abrasivos, disolventes o agentes agresivos, puede comprometer la integridad del delicado revestimiento en platino.

GENERAL INFORMATION

PRESCRIZIONI TECNICHE:

1) al fine di garantire una lunga durata del prodotto installare rubinetti filtro a monte dell'impianto, da pulire periodicamente;
2) non installare il prodotto in presenza di pressione dell'acqua superiore ai 5 bar (nel caso, utilizzare un riduttore di pressione dimostrabile idoneo ai requisiti normativi locali);
3) Collaudo dimostrabile idoneo ai requisiti normativi locali con pressione massima a 12 bar;
4) la temperatura dell'acqua non deve essere superiore ai 70°C;
5) effettuare il risciacquo delle tubazioni prima di installare il rubinetto; prima dell'installazione del prodotto, aver prova che le tubature d'acqua di entrata vengano pulite secondo le norme locali vigenti.
6) per l'installazione attenersi a quanto indicato nelle istruzioni di montaggio allegate al prodotto;
7) non collegare la messa a terra di un impianto elettrico al flessibile o ad altra conduttura idraulica;
8) chiudere l'impianto in caso assenza prolungata per più di ventiquattro ore.

L'azienda si riserva il diritto di invalidare la garanzia nel caso non venissero rispettate le condizioni di cui sopra, accertate da un tecnico della GESSI S.p.A.

Qualsiasi modifica alla presente garanzia potrà essere rilasciata solo dalla GESSI S.p.A. con apposita dichiarazione scritta. La garanzia non sarà, inoltre, operante in mancanza della documentazione comprovante la data di acquisto.

Eventuali danni e/o difetti di prodotti verranno eliminati in garanzia solo se l'articolo oggetto di reclamo sarà rimesso alla GESSI S.p.A. nella confezione originale allegando la prova di acquisto. La garanzia è estesa a tutti i paesi, esclusi Stati Uniti e Canada, in cui il prodotto è fornito dalla GESSI S.p.A. o dal suo distributore autorizzato. Sono in ogni caso esclusi dalla garanzia I costi per il montaggio e lo smontaggio del prodotto, le trasferte e gli interventi tecnici di personale specializzato, nonché gli oneri subiti dal cliente per l'indisponibilità e/o la sospensione dell'utilizzo del prodotto. Eventuali imperfezioni nelle finiture e nei materiali naturali, non sono da considerarsi difetti, ma caratteristica del prodotto per l'artigianalità della produzione.

MANUTENZIONE: INDICAZIONI PER LA PULIZIA DEI PRODOTTI GESSI S.p.A.

I prodotti GESSI S.p.A. sono realizzati in diversi materiali per soddisfare tutte le esigenze di mercato, design e funzionalità. Le
superfici dei prodotti GESSI S.p.A., sia per ambienti interni che esterni, sono ottenute utilizzando i migliori materiali e processi produttivi approvati e sono costantemente valorizzate da avanzati metodi di certificazione della qualità.
La resistenza e la durata di tutti i tipi di materiali sopra citati sono strettamente legate a un uso corretto, a una buona manutenzione e all'impiego di materiali di pulizia adeguati che ne preservino le caratteristiche originali.
Pertanto, la comparsa di macchie di ruggine o depositi di calcare sono chiare indicazioni di una non corretta o mancata pulizia e non di difetti e/o scarsa qualità dei materiali utilizzati.

Pertanto, per apprezzare appieno il vostro prodotto Gessi e preservarne la qualità estetica, considerate quanto segue:

- Le sostanze inquinanti presenti nell'acqua piovana o il calcare dell'acqua di rete rimangono sotto forma di macchie sulla superficie del prodotto una volta evaporata l'acqua.

È possibile prevenire la formazione di depositi e mantenere pulito il prodotto asciugandolo sempre con un panno morbido.

- DETERGENTI, SOLVENTI, AGENTI CHIMICI, SPUGNE ABRASIVE, PAGLIETTE, ALCOOL, PRODOTTI CONTENENTI CLORO E I SUOI DERIVATI, ECC. NON DEVONO ESSERE UTILIZZATI in quanto possono danneggiare irrimediabilmente le superfici del prodotto, compromettendone l'estetica, la brillantezza e la satinatura.

PULIRE REGOLARMENTE IL PRODOTTO CON SOLA ACQUA E SAPONE NEUTRO, ASCIUGANDOLO CON UN PANNO MORBIDO MONOUSO.

- Pulire regolarmente i filtri all'estremità del prodotto, oltre a quelli già citati, dopo averli smontati e aver rimosso il calcare che ostruisce le uscite. Pulire regolarmente anche i punti di erogazione, per esempio strofinando leggermente gli ugelli di erogazione per liberarli dal calcare e mantenere pulito il diffusore.
- Quando si utilizza un sapone spray, spruzzarlo su un panno o una spugna pulita, MAI direttamente sul prodotto.

TECHNICAL PRESCRIPTIONS:

1) in order to guarantee a long-lasting performance of the product we recommend to install angle valves with filter, which must be regularly cleaned;
2) you should not install the product in presence of water pressure higher than 5 bar: in case of higher pressure, it is recommended to use a pressure reducer (In the case, use a demonstrable pressure reducer that complies with local requirements);
3) Testing suitable for local requirements with a maximum pressure of 12 bar;
4) water temperature should not be higher than 70°C;
5) carry out the rinsing of the pipes before installing the tap; before installing the product, have proof that the inlet water pipes are cleaned according to local regulations in force.
6) regarding the installation follow the assembly instructions enclosed with the product;
7) do not connect the earthing of an electric installation to a flexible hose or to another water pipeline;
8) close the plant in case of an extended absence of more than twenty-four hours.

The company has the right to invalidate the warranty when the above mentioned conditions will not be obeyed, checked by a technician of GESSI S.p.A.

The company GESSI S.p.A. can issue only any modifications at this warranty through a proper written declaration. Furthermore, the warranty will not be valid in case of missing documentation which proves the date of purchase.

Possible product damages a/o defects will be replaced under warranty only if the related item of complaint is send back to GESSI S.p.A. in the original packaging including the proof of purchase. The warranty is valid in all the countries, excluded USA and Canada, where the product has been supplied by GESSI S.p.A. or by its authorized distributor. The costs for the assembling and the disassembling of the product, the travelling and the technical interventions by the skilled staff, as well as the burden undergone by the customer due to the indisposition a/o the suspension of the product use are in any case excluded from the warranty. Possible imperfections at the finishing and at the raw materials, are not defects, but features of the product due to the handmade production.

MAINTENANCE: GESSI S.p.A. PRODUCT CLEANING INSTRUCTIONS

GESSI S.p.A. products are manufactured in different materials to suit all market, design and functionality needs. The surfaces of the products manufactured by GESSI S.p.A., for both indoor and outdoor environments, are obtained using the best materials and approved production processes and they are constantly enhanced by advanced quality certification methods.
The resistance and durability of all the types of material mentioned above are closely linked to proper use, good maintenance and the use of suitable cleaning materials and products that preserve the original characteristics. Therefore, the appearance of spots of rust or limescale deposits are clear indications of incorrect or lack of cleaning and not the result of defects and/or poor quality of the materials used.

Therefore, in order to fully appreciate your Gessi product and preserve its aesthetic quality, consider the following:

- The pollutants found in rainwater or the limescale in mains water remain in the form of stains on the surface of the product once the water has evaporated. It is possible to prevent the formation of deposits and keep your product clean by always drying it with a soft cloth.
- DETERGENTS, SOLVENTS, CHEMICAL AGENTS, ABRASIVE SPONGES, WIRE WOOL, ALCOHOL, PRODUCTS CONTAINING CHLORINE AND ITS DERIVATIVES, ETC. MUST NOT BE USED as these may irreparably damage the product surfaces, thus compromising their aesthetic qualities, brightness and satin finish. REGULARLY CLEAN THE PRODUCT WITH ONLY WATER AND A NEUTRAL SOAP, WIPING IT DRY WITH A SOFT DISPOSABLE CLOTH.
- Regularly clean the filters upstream of the product, in addition to those mentioned above, after having disassembled them and removed the limescale obstructing the outlets. Regularly clean the distribution points too, for example by slightly rubbing the distribution nozzles so as to free them of any limescale and keep the diffuser clean.
- When using spray-on soap, spray it onto a clean cloth or sponge, NEVER directly on the product.

CLEANING GUIDELINES - FINISHES
LINEE GUIDA PER LA PULIZIA – FINITURE

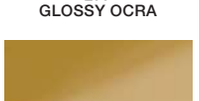

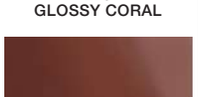

In case the instructions above (reported from Gessi standard warranty) have not been observed, it is exceptionally possible to follow the instructions in the table below / Nel caso in cui le istruzioni sopra riportate (riportate dalla garanzia standard Gessi) non siano state rispettate, è eccezionalmente possibile seguire le istruzioni riportate nella tabella sottostante.

CLEANING GUIDELINES - FINISHES
LINEE GUIDA PER LA PULIZIA – FINITURE

(*) **DETERGENTE SPECIFICO PER VETRI:** utilizzare su sporco ridotto. Spruzzare il prodotto su una spugna o un panno e strofinare la superficie. Asciugare accuratamente.
SCHIUMA MULTI AZIONE: utilizzare per rimuovere grasso e impronte digitali. Spruzzare il prodotto su un panno, strofinare la superficie e asciugare accuratamente.
ALCOL ETILICO: adatto per rimuovere residui di grasso o sporco persistente. Bagnare il panno con una piccola quantità di prodotto, strofinare la superficie e asciugare accuratamente.
ALCOL ISOPROPILICO: indicato per rimuovere i residui di grasso. Versare un po' di prodotto su un panno, passare la superficie e asciugare molto bene.

(**) **SPUGNA BIANCA:** adatta per pulire lo sporco poco persistente. Passare la spugna sulla superficie. ATTENZIONE: DA UTILIZZARE CON DELICATEZZA
PANNO IN MICROFIBRA: adatto per rimuovere la polvere. ATTENZIONE: PRIMA DI PASSARE LA SPUGNA, VERIFICARE CHE NON SIANO PRESENTI RESIDUI CHE POSSANO GRAFFIARE LA SUPERFICIE.
PANNO DI CARTA: adatto per rimuovere la polvere. Può anche essere utilizzato spruzzando su esso prodotti per la pulizia (NON spruzzare tali prodotti direttamente sulla superficie).

(***) ATTENZIONE: PRIMA DI STROFINARE, **VERIFICARE CHE NON SIANO PRESENTI RESIDUI** CHE POSSANO GRAFFIARE LA SUPERFICIE. DOPO LA PULIZIA CON L'ACQUA, ASCIUGARE IMMEDIATAMENTE OGNI SUPERFICIE PER EVITARE CHE COMPAIANO MACCHIE DI CALCARE. L'USO DI ACQUA DEIONIZZATA EVITA LA FORMAZIONE DI TALI MACCHIE. PULIRE FREQUENTEMENTE LE SUPERFICI PER EVITARE UN ECCESSO DI SPORCO O DI IMPRONTE DIGITALI E PER RIDURRE AL MINIMO GLI SFORZI PER LA PULIZIA, IL COSTO E IL RISCHIO DI ROVINARE/ALTERARE LA FINITURA.

(****) **ISTRUZIONI PER LA PULIZIA DELLE SUPERFICI IN ACCIAIO INOX:**
L'acciaio inox spazzolato può presentare impronte digitali nelle prime fasi dell'installazione, ma esse diventeranno meno evidenti dopo le prime pulizie. I prodotti più efficaci per rimuovere le impronte digitali o altri tipi di macchie sono l'acqua con sapone o un detergente delicato.
L'acciaio inox con finitura a specchio può essere pulito con prodotti specifici normalmente utilizzati per la pulizia delle superfici in vetro: l'importante è che non contengano cloruri.
Non utilizzare prodotti abrasivi perché possono lasciare graffi irreparabili sulle superfici in acciaio inox. In alternativa, per rimuovere la contaminazione, è possibile utilizzare un prodotto specifico per la pulizia dell'acciaio inox contenente acido fosforico, risciacquando accuratamente con acqua pulita e asciugando. È consigliabile trattare l'intera superficie in acciaio inox per evitare la formazione di macchie.
Tracce di malta e cemento possono essere trattate con una soluzione contenente una piccola quantità di acido fosforico. Risciacquare con acqua (preferibilmente deionizzata per ridurre il rischio di macchie) e asciugare. Non utilizzare mai nessun tipo di prodotto specifico per la rimozione della malta o l'acido cloridrico diluito: in caso di utilizzo o se versati accidentalmente sull'acciaio inox, risciacquare abbondantemente con acqua pulita.

NON UTILIZZARE PRODOTTI CONTENENTI CLORURO (IN PARTICOLARE ACIDO CLORIDRICO), CANDEGGINE CON ACIDO IPOCLOROSO O PRODOTTI UTILIZZATI PER LA PULIZIA DELL'ARGENTO.
Se versati accidentalmente sull'acciaio inox, risciacquare abbondantemente.
Per rimuovere lo sporco leggero o le impronte digitali, utilizzare un panno umido o un panno scamosciato; per lo sporco più persistente, si consiglia di utilizzare spugne di nylon.

NON UTILIZZARE PAGLIETTE IN ACCIAIO: oltre a graffiare, possono lasciare depositi di carbonio nell'acciaio che, in presenza di umidità, possono dare origine a macchie di ruggine.
Sulle finiture lucide con una texture superficiale in una sola direzione, la pulizia deve essere effettuata con movimenti che seguono la direzione della finitura, non trasversalmente. Per evitare la contaminazione da parte di particelle di ferro, è necessario assicurarsi che gli strumenti di pulizia scelti non siano stati precedentemente usati su acciaio al carbonio. Infatti, i materiali per la pulizia dei prodotti in acciaio inox devono essere riservati esclusivamente a questo scopo.

(*) **SPECIFIC GLASS CLEANER**: use on low dirt. Spray the product on a sponge or cloth and wipe the surface. Dry accurately.
MULTIFOAM: use to remove grease and fingerprints. Spray on a cloth, wipe the surface and dry thoroughly
ETHYL ALCOHOL: suitable for removing grease residues or persistent dirt. Wet the cloth with a little amount of it, wipe the surface and dry accurately
ISOPROPYL ALCOHOL: indicated for removing grease residues. Put a little product on a cloth, wipe the surface and dry very well.

(**) **WHITE SPONGE:** Suitable for cleaning lightly persistent dirt. Wipe the sponge over the surface. CAUTION: CLAN SOFTLY
MICROFIBRE CLOTH: Suitable for removing dust. CAUTION: BEFORE WIPING, CHECK THERE ARE NO RESIDUES THAT COULD SCRATCH THE SURFACE.
PAPER CLOTH: Suitable for removing dust. It can also be sprayed with cleaning products (do NOT spray such products directly on the surface). CAUTION: BEFORE WIPING, CHECK THAT THERE ARE NO RESIDUES THAT COULD SCRATCH THE SURFACE.

(***) AFTER CLEANING WITH WATER, **DRY EACH SURFACE IMMEDIATELY** TO PREVENT THE APPEARANCE OF LIMESCALE STAINS. THE USE OF DEIONIZED WATER WILL PREVENT THE FORMATION OF SUCH STAINS. CLEAN THE SURFACES FREQUENTLY TO AVOID EXCESSIVE DIRT OR FINGERPRINTS AND TO MINIMIZE THE CLEANING EFFORT, COST AND THE RISK OF SCORING/ALTERING THE FINISH.

(****) **INSTRUCTIONS FOR STAINLESS STEEL SURFACES CLEANING:**
Brushed stainless steel may show fingerprints in the early stages of installation, but these will become less noticeable after the first few cleanings. The most effective products for removing fingerprints or other types of stains are water with soap or a mild detergent.
Stainless steel with a mirror finish can be cleaned with specific products usuallv used for cleaning glass: most importantiv. thev must not contain chlorides. Do not use abrasive products as they can leave irreparable scratches on stainless steel surfaces. Alternatively, to remove contamination, a specific stainless steel cleaning product containing phosphoric acid may be used, carefully rinsing with clean water and drying. It is advisable to treat the entire stainless steel surface to avoid stains.
Traces of mortar and cement can be treated with a solution containing a small amount of phosphoric acid. Rinse with water (preferably deionized water to reduce the risk of leaving stains) and dry. Never use any type of product specifically designed for mortar removal or diluted hydrochloric acid: if these are accidentally used or spilled on stainless steel, rinse thoroughly with clean water.

DO NOT USE PRODUCTS CONTAINING CHLORIDE (ESPECIALLY CHLORIDRIC ACID), HYPOCHLORIC ACID CANDYGINS, OR PRODUCTS USED TO CLAN SILVER. If accidentally spilled on any stainless steel surface, rinse thoroughly.
To remove light dirt or fingerprints, use a damp cloth or suede leather; for more persistent dirt, nylon sponges are recommended.

DO NOT USE ABRASIVE WOOL PADS AND NON-INOX WOOL PADS: in addition to scratching, they can leave carbon steel deposits that, in the presence of humidity, could result in rust stains.
On polished finishes with a unidirectional surface texture, cleaning should be done with movements that follow the direction of the finish, not across it. To avoid contamination by iron particles, it is necessary to ensure that the cleaning tools chosen have not been previously used on carbon steel. In fact, materials for cleaning stainless steel workpieces must be reserved exclusively for this purpose.

CONDIZIONI GENERALI DI VENDITA

1.Applicabilità

1.1.Le presenti condizioni generali di vendita (le “Condizioni Generali”) rappresentano un contratto tra:

(i) “Gessi”: si intende Gessi s.p.a. con sede legale in Parco Gessi, 13037 frazione Vintebbio, Serravalle Sesia (VC), codice fiscale e P. IVA 02235360027; e

(ii) l’“Acquirente”: si intende il rivenditore professionale che accetti di procedere all’acquisto dei prodotti di Gessi dopo aver ricevuto le presenti Condizioni Generali.

(Gessi e l’Acquirente sono indicate collettivamente come le “Parti”).

1.2.Accettando di procedere all’acquisto dei prodotti di Gessi (i “Prodotti”) dopo aver ricevuto le presenti Condizioni Generali, ad esempio accettando la consegna o effettuando il pagamento, l’Acquirente accetta le presenti Condizioni Generali ai sensi dell’art. 1327 del Codice civile. A seguito di tale accettazione le presenti Condizioni Generali disciplineranno tutti gli ordini effettuati dall'Acquirente (gli “Ordini”). Gli Ordini accettati da Gessi sono considerati contratti di vendita vincolanti che non possono essere risolti unilateralmente dall'Acquirente. Tali Ordini accettati e le presenti Condizioni Generali costituiranno l'intero accordo tra le Parti (l “Accordo”).

1.3. Queste Condizioni Generali prevalgono su qualsiasi eventuale altra previsione, richiesta e/o condizione relativa all’ordine di acquisto che venga avanzata dal Cliente nei confronti di Gessi, salvo che sia da quest’ultima espressamente approvata per iscritto.

1.4. Le presenti Condizioni Generali sono regolate dalla legge italiana.

1.5.. Gessi si riserva il diritto, a sua esclusiva discrezione, di modificare periodicamente le Condizioni Generali. Tali modifiche avranno effetto dal momento in cui saranno comunicate al Cliente o dalla loro pubblicazione nel sito web di Gessi. La risoluzione, nullità, inefficacia di una (o una parte di) clausola o di alcune clausole dell’Accordo non può comportare in alcun modo la risoluzione, nullità, inefficacia delle altre clausole o di parte di esse previste nell’Accordo.

2.Prezzi e pagamento

2.1.I prezzi indicati nel presente listino prezzi (il "Listino Prezzi") si intendono IVA esclusa e sono espressi in EUR. Nel corso del rapporto commerciale con l'Acquirente, Gessi potrà comunicare a quest'ultimo variazioni di prezzo. Gessi e l'Acquirente potranno concordare sconti specifici relativi ai servizi di distribuzione dell'Acquirente.

2.2.Gessi si riserva il diritto di modificare il Listino Prezzi, ad esempio apportando modifiche ai Prodotti e/o anche eliminando lo stesso modello dal presente Listino Prezzi, in qualsiasi momento e a sua esclusiva discrezione senza alcun obbligo di preavviso all'Acquirente

2.3.I pagamenti diventano esigibili alla data di scadenza indicata nella relativa fattura di Gessi e i corrispettivi dovuti non potranno in nessun caso essere trattenuti dall’Acquirente. In particolare, eventuali ritardi nella consegna dei Prodotti o qualsiasi altro comportamento tenuto da Gessi che secondo l’Acquirente configuri un inadempimento di Gessi, non giustificano il ritardo dell’Acquirente nel pagamento dei corrispettivi dovuti.

2.4.In caso di ritardo nel pagamento dei corrispettivi dovuti da parte dell’Acquirente, Gessi si riserva il diritto di applicare gli interessi moratori ai sensi del D.Lgs. n. 231/2002, fermi in ogni caso i limiti di legge.

3.Riserva di proprietà

Gessi rimarrà proprietaria dei Prodotti ordinati sino al pagamento da parte dell’Acquirente dell’intero corrispettivo convenuto per l’Ordine e/o sino al pagamento dilazionato solo se tale modalità di pagamento sia stata espressamente accordata da Gessi. A tal fine l’Acquirente si impegna a collaborare con Gessi per tutelare la proprietà di quest’ultima. I rischi da perdita o da danneggiamento dei Prodotti saranno trasferiti in capo all’Acquirente dal momento in cui i Prodotti verranno consegnati all’Acquirente ex art. 4.1. delle Condizioni Generali.

4.Spedizione e consegna dei Prodotti

4.1.Salvo diverso ed espresso accordo tra Parti, la consegna dei Prodotti dovrà avvenire EXW (Incoterms 2010) presso la sede legale di Gessi, in Italia.

4.2.Al momento della consegna dei Prodotti ordinati, l’Acquirente verificherà (i) se la quantità di Prodotti ricevuta corrisponde a quella acquistata, e (ii) se l’imballaggio dei Prodotti risulta integro. L’Acquirente segnalerà su un apposito report di consegna della spedizione qualsiasi errore e/o diversità della consegna, indicando in particolar modo eventuali errori in merito alla quantità e/o al tipo di Prodotti consegnati e/o eventuali danneggiamenti dell’imballaggio. Questo report dovrà essere confermato per iscritto dal soggetto che ha effettato la consegna all’Acquirente mediante l’apposizione della propria firma e dovrà essere inviato a Gessi.

4.3.Salvo diverso ed espresso accordo tra le Parti, entro 14 giorni di calendario dalla consegna, l’Acquirente dovrà inoltre (i) verificare se i Prodotti sono stati consegnati in buone condizioni; (ii) documentare la presenza di eventuali vizi dei Prodotti tramite, ad esempio, fotografie e/o video che mostrino chiaramente questi vizi; e (iii) segnalare la presenza di questi vizi a Gessi tramite e-mail all’indirizzo di posta del proprio referente commerciale (la cui ricezione della comunicazione sarà confermata da Gessi) oppure tramite fax o raccomandata A/R. La segnalazione dell’Acquirente dovrà includere una descrizione dettagliata e documentata di questi vizi. L’Acquirente metterà a disposizione di Gessi i Prodotti per consentirle di effettuare tutte le verifiche necessarie o dovrà inviare i Prodotti presso la sede di Gessi per le opportune verifiche tecniche, qualora Gessi lo ritenga necessario. Le spese di spedizione sono a carico di Gessi solo se le segnalazioni dell’Acquirente siano ritenute fondate da Gessi.

4.4.Nel caso in cui l’Acquirente non avanzi contestazioni sui Prodotti ordinati e/o sulla consegna nei termini e con le modalità di cui agli articoli 4.2. e 4.3., i Prodotti si considereranno, salvo difetti visibili, consegnati nella quantità e con le qualità convenute, nonché in buono stato e l’Acquirente non potrà avanzare alcuna pretesa in ordine alla quantità e alla qualità dei Prodotti consegnati e/o allo stato dei Prodotti, salvo quanto diversamente previsto dalla legge applicabile. Le disposizioni che precedono non pregiudicano gli obblighi di garanzia in capo a Gessi. Resta inteso tra le Parti che né le Condizioni Generali né le garanzie di Gessi pregiudicano eventuali garanzie inderogabili previste dalla normativa applicabile.

5.Destinazione dei Prodotti

5.1. Le Parti convengono che, qualora la vendita dei Prodotti nel Paese indicato dall'Acquirente quale Paese di destinazione dei Prodotti e/o nel Paese in cui vi sia la sede dell'Acquirente sia (o Gessi venga a conoscenza che sia) soggetta a restrizioni o violerebbe qualsiasi normativa applicabile (le "Restrizioni"), a meno che le Restrizioni non vengano revocate, i relativi Ordini saranno annullati da Gessi ex art. 1456 c.c., senza possibilità di modificare il Paese di destinazione dei Prodotti e Gessi potrà, a sua esclusiva discrezione, (i) rimborsare al Cliente il pagamento ricevuto da quest'ultimo per gli Ordini annullati; e/o (ii) concedere un credito all'Acquirente per i Prodotti che non sono soggetti a Restrizioni, a seconda della disponibilità. In nessun caso l'Acquirente avrà il diritto di richiedere a Gessi di fornire i Prodotti nei Paesi soggetti a Restrizioni e/o che possono essere utilizzati per aggirare le Restrizioni, essendo Gessi un produttore dedito alla scrupolosa osservanza di tutte le leggi applicabili, ivi compresa la normativa inerente alle Restrizioni. Nel caso di violazione dell'art. 12 octies del Regolamento (UE) n. 833/2014, Gessi, oltre al diritto di annullare gli Ordini, può recedere dall'Accordo e ha il diritto di richiedere il rimborso delle spese sostenute in relazione all'Accordo che ha portato alla violazione, nonché il risarcimento dei danni. In ogni caso, Gessi si impegna a notificare le Autorità competenti in caso di violazione del divieto previsto da questo articolo.

5.2.L'Acquirente riconosce che i Prodotti possono essere destinati a determinati territori in cui le leggi locali prevedono requisiti diversi rispetto ad altri territori e/o in cui la struttura sanitaria differisce da quella di altri paesi. L'Acquirente dovrà sempre rivendere i Prodotti all'interno dei territori a cui i Prodotti sono destinati per assicurarsi che siano conformi alle leggi locali, fatte salve eventuali leggi (comprese quelle dell'UE) che vietino limitazioni dei territori di rivendita.

6.Garanzie di Gessi

6.1.Gessi garantisce che i Prodotti possiedono le specifiche tecniche richieste dalle norme di legge, soggette comunque a tolleranze ragionevoli e comunemente accettate nel mercato, e che al momento della consegna i Prodotti sono privi di vizi e/o difetti relativi al materiale utilizzato nonché alle lavorazioni eseguite.

6.2.Gessi non garantisce che i Prodotti siano compatibili con le leggi e le apparecchiature locali in tutto il mondo. Per questo motivo, la garanzia è valida solo ed esclusivamente per tutti i Paesi ai quali è destinato il Prodotto venduto all'Acquirente, fatte salve comunque le disposizioni della normativa applicabile.

7.Diritti di proprietà intellettuale

7.1.L'Acquirente riconosce che tutti i diritti d'autore, i disegni industriali, i brevetti, i marchi, i marchi di servizio, i loghi, i nomi commerciali, i nomi di dominio e/o gli slogan, registrati o non registrati e tutti gli altri diritti di proprietà intellettuale secondo diverse giurisdizioni (i "Diritti di Proprietà Intellettuale") detenuti o comunque nella disponibilità di Gessi e/o delle sue controllate o affiliate sono di proprietà o concesse in licenza a Gessi e/o alle sue controllate o affiliate, concedendo loro il diritto esclusivo di utilizzare e beneficiare di tali Diritti di Proprietà Intellettuale e l'Acquirente non acquisisce alcuno dei Diritti di Proprietà Intellettuale con la sottoscrizione delle presenti Condizioni Generali.

7.2.Nel corso del rapporto commerciale tra le Parti e successivamente alla sua cessazione, l'Acquirente non deve produrre i Prodotti o qualsiasi altro prodotto simile o che imiti i Prodotti e in ogni caso non deve violare i Diritti di Proprietà Intellettuale in nessuna circostanza e/o agire in qualsiasi modo che possa pregiudicare l'avviamento di Gessi.

7.3.Non è consentito all'Acquirente utilizzare carta intestata, biglietti da visita, insegne (anche nella corrispondenza via e-mail con i clienti o con terze parti) o altre rappresentazioni a nome di Gessi o di una delle sue controllate o affiliate, nonché rappresentare sé stesso come Gessi o come parte del Gruppo a cui Gessi appartiene o come una delle sue controllate o affiliate senza l'espressa autorizzazione scritta di Gessi.

7.4.L'Acquirente commercializzerà, distribuirà e venderà i Prodotti esclusivamente con i marchi, i loghi, i nomi commerciali e gli altri segni distintivi (i "Marchi) di Gessi e non con altri Marchi. L'Acquirente non dovrà rimuovere alcun Marchio di Gessi dai Prodotti e/o dal loro imballaggio senza il consenso scritto di Gessi. Qualsiasi rimozione, alterazione e/o modifica dei Marchi di Gessi o dei dati tecnici o delle etichette consegnate con i Prodotti o comunque fornite da Gessi sarà considerata una violazione dei Diritti di Proprietà Intellettuale di Gessi.

7.5.Resta inteso e concordato tra le Parti che Gessi non concede all'Acquirente alcuna licenza d'uso dei Marchi di Gessi o di altri materiali forniti da Gessi all'Acquirente se non per la promozione dei Prodotti e seguendo rigorosamente le indicazioni di Gessi.

7.6.L'Acquirente non potrà modificare i Marchi e i Prodotti di Gessi senza prima aver ottenuto il consenso scritto di quest'ultima. L'Acquirente riconosce che se durante l'efficacia dell'Accordo si renderanno necessarie delle modifiche ai Prodotti, ai disegni, ai marchi, ai materiali promozionali e/o a qualsiasi altro Diritto di Proprietà Intellettuale detenuto da Gessi, quest'ultima rimarrà, in ogni caso, la proprietaria esclusiva di tutti i Diritti di Proprietà Intellettuale modificati.

7.7.L'Acquirente non dovrà tentare di registrare alcuno dei Diritti di Proprietà Intellettuale di Gessi. Inoltre, l'Acquirente non dovrà tentare di registrare o anche solo utilizzare marchi o disegni confondibili con i Diritti di Proprietà Intellettuale di Gessi (anche se non sono registrati).

7.8.L'Acquirente dovrà condurre gli affari in modo tale che l'operato dell'Acquirente si rifletta sempre favorevolmente sui prodotti e sulla reputazione di Gessi.

7.9.È fatto divieto all'Acquirente qualsiasi uso commerciale dei Diritti di Proprietà Intellettuale di Gessi diverso da quello strettamente consentito dall'Accordo.

7.10. L'Acquirente segnalerà immediatamente a Gessi qualsiasi violazione effettiva o potenziale dei Diritti di Proprietà Intellettuale di Gessi e dovrà collaborare con Gessi per proteggere tali Diritti di Proprietà Intellettuale seguendo rigorosamente le direttive di Gessi.

7.11. Gessi potrà adottare forme di distribuzione selettiva che saranno previamente concordate tra le Parti.

8. Codice di condotta e policy

L'Acquirente si impegna a rispettare il codice di condotta di Gessi e tutte le politiche di Gessi applicabili all'Acquirente, reperibili sul sito ufficiale di Gessi https://www.gessi.com/.

9. Riservatezza

L'Acquirente riconosce e accetta che, durante l'efficacia dei rapporti contrattuali con Gessi e successivamente alla loro cessazione, tutta la documentazione e le informazioni commerciali riservate, in qualsiasi forma o supporto, divulgate da Gessi o comunque conosciute dall'Acquirente, verbalmente o per iscritto, in conseguenza o attraverso il rapporto commerciale con Gessi e che non sono generalmente note al pubblico, quali, a titolo esemplificativo ma non esaustivo, le informazioni relative ai Prodotti, alle finanze, ai processi, ai servizi, ai clienti, agli acquisti, ai risultati dei test, alla tecnologia, alla contabilità, alla produzione, alla distribuzione e alla commercializzazione (le "Informazioni") rimarranno di proprietà esclusiva di Gessi, saranno tenute strettamente riservate dall'Acquirente e quest'ultimo non potrà pubblicarle, divulgarle, diffonderle o utilizzarle in alcun modo, ad eccezione di quanto espressamente consentito nelle presenti Condizioni Generali. L' Acquirente non può riprodurre e copiare in tutto o in parte le Informazioni e deve restituirle o distruggerle alla scadenza o alla risoluzione dell'Accordo. L'Acquirente deve salvaguardare tali Informazioni e garantire che solo i dipendenti, i funzionari e gli amministratori che abbiano bisogno di avere accesso alle Informazioni per adempiere gli obblighi previsti dall'Accordo, possano avere accesso alle Informazioni e che tali dipendenti, funzionari e amministratori rispetteranno gli obblighi di riservatezza e di non utilizzo stabiliti nelle Condizioni Generali. Inoltre, rispetta i codici di condotta e le policy di Gessi.

GENERAL SALES CONDITIONS

1.Applicability

1.1.These general terms and conditions of sale (the “General Conditions”) shall form a binding contract between:

(i) “Gessi” meaning Gessi s.p.a. with its registered office in Parco Gessi, 13037 hamlet Vintebbio, Serravalle Sesia (VC), Tax Identification Number and VAT number 02235360027; and

(ii) the “Buyer” meaning the professional reseller agreeing to proceed with the purchase of Gessi’s products (the “Products”) after receiving these General Conditions.

(collectively the “Parties”)

1.2.By agreeing to proceed with the purchase of Gessi’s products (the “Products”) after receiving these General Conditions, for example by accepting the delivery or by making a payment, the Buyer accepts these General Conditions under to art. 1327 of the Italian Civil Code. Following such acceptance of these General Conditions, they shall govern all the Orders placed by the Buyer (the “Orders”). The Orders accepted by Gessi, are deemed biding contracts of sale which cannot be terminated unilaterally by the Buyer. Such accepted Orders and these General Conditions shall constitute the entire agreement between the Parties (the “Agreement”).

1.3.These General Conditions shall prevail over any general conditions presented to Gessi by the Buyer, either in the purchase orders or otherwise, unless expressly accepted in writing by Gessi. These General Conditions are governed by the laws of Italy.

1.4.Gessi reserves the right, at its sole discretion, to modify the General Conditions from time to time. Any such change shall take effect upon communicating them to the Buyer.

1.5.The resolution, invalidity, or ineffectiveness of one (or part of) a clause or any provision of the Agreement shall not in any way result in the termination, invalidity, or ineffectiveness in part or in the whole of any other clause or provision of the Agreement.

2.Prices and payment

2.1.The prices indicated on this price list(the “Price List”) are V.A.T. excluded and they are expressed in EUR. In the course of the business relationship with the Buyer, Gessi may communicate to the latter changes in price. Gessi and the Buyer may agree on the specific discounts relating to the distribution services of the Buyer.

2.2.Gessi reserves the right to change the Price List, for example, by making changes to the Products and/or even eliminating the same model from this Price List, at any time and at its sole discretion, without any obligation to give prior notice to the Buyer.

2.3.The payments become due with the expiration date of the relevant invoice of Gessi and shall not be retained by the Buyer under any circumstances. In particular, any delays in delivery or other conduct of Gessi the Buyer believes constitutes a default of Gessi shall not constitute grounds for any delay in the payments due.

2.4.In case of any delay in the payment due, Gessi reserves the right to charge default interest under Legislative Decree no. 231/2002 as amended, without prejudice in any case to the applicable legal limits.

3.Retention of title

The ordered Products shall remain the property of Gessi until the relevant Order is entirely paid up by the Buyer and/or in the case of an extended payment if such was agreed upon by Gessi. For that purpose, the Buyer shall cooperate with Gessi to protect Gessi’s ownership. The above is without prejudice to the fact that the risks of losing or damaging the Products shall pass to the Buyer from the moment the Products are delivered to the Buyer under art. 4.1. hereof.

4.Shipment and delivery

4.1.Unless otherwise expressly agreed upon by the Parties, the delivery shall be EXW (Incoterms 2010) Gessi’s headquarters, Italy.

4.2.Upon delivery of the ordered Products, the Buyer shall check (i) if the delivery is complete; and (ii) the packaging of the Products. The Buyer shall report, on a delivery report that must also be signed by the person delivering the Order to the Buyer and sent to Gessi, any default of delivery, indicating any error in the quantity or kind of the Products delivered or any damage to the packaging.

4.3.Unless otherwise expressly agreed upon by the Parties, within 14 calendar days from the delivery, the Buyer shall also (i) verify whether the Products were delivered in good shape; (ii) duly document any possible defects of production in the Products, with photographs and/or videos showing clearly such defects; and (iii) report any such defects to Gessi, via email at the mail address of your commercial referent (the reception of which should be confirmed by Gessi), fax, or registered letter, including a detailed description of the default and the documentation proving the default. The Buyer shall make the Products available for inspection or, if requested by Gessi, resend the Products to Gessi at Gessi’s cost (if Gessi confirms the Buyer’s claims) for its inspection when Gessi believes it is necessary.

4.4.If the Buyer does not raise any objection to the delivery and/or to the ordered Products according to the provisions of the above Sections 4.2. and 4.3., such delivery and ordered Products shall be considered, regarding visible defects, delivered in expected quantity and quality, in good shape, and the Buyer shall not be entitled to raise any further objections in that regard unless otherwise provided for by applicable law. The above is without prejudice to Gessi’s warranty obligations. It is understood that neither these General Conditions nor Gessi’s warranty shall prejudice any imperative guarantees provided by applicable laws.

5.Destination of Products

5.1.The Parties agree that if the sale of the Products in the country indicated by the Buyer as the country of destination of the Products and/or in the country in which the Buyer headquarters is located becomes (or it comes to Gessi’s knowledge that it has been) restricted by or would infringe any applicable regulations (the “Restrictions”) and unless the Restrictions are withdrawn, the relevant Orders will be cancelled by Gessi under art. 1456 of the Italian Civil Code, without the possibility to change the destination of the shipment and Gessi may, at its sole discretion, choose to (i) refund the payments already obtained from the Buyer for such cancelled Orders, (ii) and/or give credit to the Buyer for the Products that are not restricted, subject to availability. Under no circumstances shall the Buyer have the right to request Gessi to supply the Products to the countries

which are covered by the relevant Restrictions and/or which may be used to circumvent such Restrictions, being Gessi a manufacturer dedicated to scrupulous compliance with all the applicable laws, including also the legislation regarding the Restrictions. In the event of a violation of Article 12g of Regulation (EU) No. 833/2014, Gessi, in addition to the right to cancel Orders, may withdraw from the Agreement and shall have the right to request reimbursement of the expenses incurred in relation to the Agreement that led to the violation, as well as compensation for damages. In any case, Gessi commits to notifying the competent Authorities in the event of a violation of the prohibition set forth in this article.

5.2. The Buyer acknowledges that the Products may be dedicated to certain territories where local laws provide different requirements than other territories and/or where the sanitary structure differs from other countries. The Buyer shall always resell the Products within territories for which the Products are destined to ensure they comply with local laws. This is without prejudice to any laws (also including EU laws) prohibiting limitations of the resale territories.

6. Warranties of Gessi

6.1. Gessi warrants that the Products will correspond with their technical specifications subject to reasonable tolerances generally accepted in the trade and will be free from defects in material and workmanship at the time of delivery.

6.2. Gessi does not warrant that the Products will be compatible with local laws and appliances worldwide. For this reason, the warranty is valid only and exclusively for all countries for which the Product sold to the Buyer is destined, without prejudice, in any case, to the provisions of the applicable laws.

7. Use of Gessi's Intellectual Property Rights by the Buyers

7.1. The Buyer acknowledges that all copyrights, industrial designs, patents, trademarks, service marks, logos, commercial names, trade names, domain names and/or slogans, whether registered or unregistered and all other intellectual property rights protected under different jurisdictions (the "Intellectual Property Rights") held or in any case operated by Gessi and/or by its subsidiaries and affiliates are owned by or licensed to Gessi and/or its subsidiaries and affiliates, granting them an exclusive right to use and benefit from such Intellectual Property Rights and the Buyer does not acquire any such rights hereunder.

7.2. During the Parties' business relationship and after its end, the Buyer shall not produce the Products or any other products similar to or imitating the Products or in any other way infringe the Gessi' Intellectual Property Rights and/or act in any other way to the detriment of the goodwill of Gessi.

7.3. The Buyer shall not use letterhead, calling cards, signage (also in the e-mail correspondence with clients and other third parties) or other representations in the name of Gessi or any of its subsidiaries or to represent itself as Gessi or as a part of Gessi's team or as any of its subsidiaries without the express, written permission of Gessi.

7.4. The Buyer shall market, distribute and sell the Products only under the trademarks, logos, commercial names and other distinctive signs (the "Trademarks") of Gessi and not under any other Trademark. The Buyer shall not remove any Trademarks of Gessi from the Products and/or their packaging without Gessi's written consent. Any such removal, distortion and/or change of the Trademarks of Gessi or technical data or labels delivered with the Products or otherwise provided by Gessi shall be considered an infringement of the Intellectual Property Rights of Gessi.

7.5. It is understood and agreed by the Buyer that Gessi does not grant to the Buyer any licence to use the Trademarks of Gessi or its other materials provided to the Buyer by Gessi otherwise than as necessary for the promotion of the Products and following strictly the indications of Gessi.

7.6. The Buyer shall not alter any Trademarks or Products of Gessi without the latter's prior written consent. The Buyer acknowledges that if, during the effectiveness of this Agreement, changes to the Products, designs, Trademarks, promotional materials and/or other Intellectual Property of Gessi become necessary, Gessi will remain, in any case, the exclusive owner of all such modified Intellectual Property Rights.

7.7. The Buyer shall not attempt to register any of the Intellectual Property Rights of Gessi. Furthermore, the Buyer shall not attempt to register or even use any other Trademarks or designs confusingly similar to the Intellectual Property Rights of Gessi (also if they are not registered).

7.8. The Buyer shall conduct business in a manner that always reflects favourably on the Products and reputation of Gessi.

7.9. Any commercial use of the Intellectual Property Rights of Gessi by the Buyer other than strictly permitted under this Agreement is prohibited.

7.10. The Buyer shall immediately report to Gessi any actual or potential infringements of the Intellectual Property rights of Gessi and shall cooperate with Gessi in protecting such Intellectual Property Rights according to Gessi's instructions.

6.11. Gessi may adopt selective forms of distribution that will first be agreed upon between the parties.

8. Code of conduct and policy

The Buyer shall comply with Gessi's code of conduct and all Gessi's policies applicable to the Buyer, which can be found on Gessi's official website: https://www.gessi.com/.

9. Confidentiality

The Buyer acknowledges and agrees that, during the business relationship with Gessi and after its expiry, all documentation and confidential business information, in whatever form or media, disclosed by Gessi to or known by the Buyer orally or in writing as a consequence of or through the Buyer's relationship with Gessi and which is not generally known to the public, including but not limited to, correspondence with Gessi, information concerning Gessi's products, finances, processes and services, clients, purchasing, test results, technology and technical information, accounting, manufacturing, distribution and marketing ("Information"), shall remain the sole and exclusive property of Gessi, shall be held in strict confidence by the Buyer, and shall not be published, disclosed, disseminated or used by the Buyer in any manner, except as expressly permitted hereunder. The Buyer may not reproduce or copy the Information, in whole or in part, and must return or destroy the Information upon the expiration or other termination of this Agreement. In addition, the Buyer shall safeguard such Information and ensure that only the Buyer's employees, officers and directors who need access to the Information for purposes of performing the Buyer's obligations under this Agreement

will be given such access and all such employees, and officers and directors will comply with the confidentiality and non-use obligations set forth herein. It also complies with Gessi's codes of conduct and policies.
